This unique geographical location has led it to have some unique flora and fauna. Large number of medicinal plants and herbs are found here. Kerala has been the cradle of Ayurvedic medicine since ancient times. Ayurveda is not a science in Kerala, but has been blended with the lives of common people in a great way. People from across the globe comes to Kerala for its unique Ayurvedic experience. There are large number of private sector interventions in Ayurveda in Kerala. Hence there is a great need for a Central Government institution of Ayurveda in Kerala. Kozhikode is the ideal location for such an institute. Due to its geographic location, Kozhikode will be accessible easily to neighbouring States as well.

Hence this Bill.
