(i) provide free pre-school education and elementary school education to every child of the age of three to eighteen years; and

(ii) ensure compulsory admission, attendance and completion of pre-school education and elementary education by every child of the age of three to eighteen years.” 15

Amendment of section 9. **6.** In section 9 of the principal Act, in clause (d) for the words “up to the age of fourteen years”, the words “up to the age of eighteen years” shall be substituted.

STATEMENT OF OBJECTS AND REASONS

India being the signatory to the United Nations Convention on the Rights of the Child (UNCRC), had committed to Article 28 of the UNCRC, made it incumbent on the State to provide elementary education compulsory and free to all. The foundation of schooling is laid in the early years between the ages of three to six years. These early years are regarded as the foundation years and critical for mental and emotional development of a child. The age group is significant for brain development and sets the foundation for sound and basic learning in later years. Hence, it is proposed that minimum age of children is to be reduced from six to three years so that this important age group is covered under the Right of Children to Free and Compulsory Act, 2009. Moreover, the existing school system in our country consists from elementary to plus two, accordingly, the maximum age of children for free and compulsory education be enhanced from fourteen to eighteen years.

Hence, this Bill.

FINANCIAL MEMORANDUM

Section 7 of the principal Act makes it obligatory for the Central and State Governments to provide funds for carrying out provisions of the Act. The proposed amendments as given in clauses of the Bill lowers the entry level age from 6 to 3 years and increases the maximum age limit from 14 to 18 years of every child for free and compulsory education, thereby increasing the financial burden of the Central Government. The Bill, if enacted, would involve additional expenditure from the Consolidated Fund of India and it is very difficult to estimate the expenditure at this juncture as the same would depend upon the number of students added by the proposed amendment of the Act.

No non-recurring expenditure is likely to be involved.
