STATEMENT OF OBJECTS AND REASONS

India is an agricultural country where more than seventy per cent. of the people earn their sustenance from agriculture itself as it happens to be the principal source of their income. Besides natural resources, favourable atmosphere is also necessary for good produce. Polluted environment, unplanned and uncontrolled development leads to disruption in the weather-cycle in the country frequently culminating in the incidence of floods. In the recent past, floods have wreaked havoc in Uttar Pradesh, Madhya Pradesh, Bihar, West Bengal, Uttarakhand, Odisha, States. The floods have devastated hundreds of villages and caused severe damage to life and property as well as to crops. Alongside, agricultural land has been subjected to great soil erosion. Several parts of the country have to bear the burnt of devastating floods every year from June to September due to which millions of people get displaced and rendered homeless. Huge loss occurs due to the loss of crops, livestock as well as erosion of soil. In view of the problems faced by the flood victims, temporary arrangements of shelter and food are made for them.

Such temporary arrangements need to be put in place in the flood affected areas every year. There is a need to exercise an effective control and find a permanent solution by making arrangements for permanent shelters to the flood affected people with essential infrastructure like pucca houses, proper drainage system, community hall for livelihood in emergent situation and sheds for animals with proper provision of fodder, etc.

Hence this Bill.
