STATEMENT OF OBJECTS AND REASONS

India is the land of many great rivers. Floods occur in almost all river basins of the country and many parts of the country are visited by droughts. The water resources of the country are not being fully utilized. Every year there are floods which cause immense loss of life and property and the same can be said about droughts. Whereas in some parts of the country there are floods, there is drought in other parts. The national resources are damaged by floods. The problem, therefore, needs to be addressed urgently to mitigate the effects of floods and droughts.

Therefore, it is expedient in public interest to evolve an integrated and scientific approach to the flood control and dealing with droughts and to draw out a national plan fixing priorities for implementation of strategies in the future.

The Bill seeks to provide for the setting up of a National Flood Control and Droughts Board to suggest measures to prevent and control floods and droughts in the country.

Hence this Bill.

FINANCIAL MEMORANDUM

Clause 3 of the Bill provides for setting up of a National Flood and Drought Control Board. Clause 5 provides that the expenditure on flood control measures suggested by the Board shall be borne by the Central Government and State Governments. The Bill, therefore, if enacted, would involve expenditure from the Consolidated Fund of India. It is likely to involve a recurring expenditure of about rupees one hundred crore per annum.

A non-recurring expenditure of about rupees one hundred crore is also likely to be involved.

MEMORANDUM REGARDING DELEGATED LEGISLATION

Clause 8 of the Bill gives power to the Central Government to frame rules for carrying out the purposes of the Bill. The rules will relate to matters of detail only and as such the delegation of legislative power is of a normal character.
