## STATEMENT OF OBJECTS AND REASONS

The development process in the Central Himalayan States of Uttarakhand, Himachal Pradesh and Jammu and Kashmir has been very tardy due to their geographical location and social background. The people living in these States do not have adequate educational facilities and consequently, employment opportunities. The people also have to travel to other States for medical treatment as there are no well equipped hospitals and qualified doctors. There has also been negligible growth of industries. There is an urgent need for setting up of environment friendly industries in these States for the development of the States as a whole and to enable the local youth to get employment opportunities. For setting up of new industries, special concessions including waiver of excise duty for a specific period should be given to the industries in the States by the Central Government.

The problems of these Himalayan States are interlinked. All these States experience, almost every year, recurrent floods, landslides, cloudburst, etc. thereby causing huge loss of life and property. Basic infrastructure facilities like "*Pucca Roads*", electricity, communication, schools, drinking water, bridges connecting remote villages with Pucca Roads, etc. have still to be made available to all the people of these regions even after sixty years of independence. As these regions share common problems, the solutions to their problems are also common. Many of the development works in these States can be carried out only by involvement of all the three States. The State of Uttarakhand, being recently created, needs special attention for its overall development.

It is, therefore, proposed to establish a Central Himalayan States Development Council to look into and accelerate the process of development in these States, particularly in Uttarakhand. A similar Council has been functioning very successfully for North-Eastern States. The establishment of such a Council for the States of Uttarakhand, Himachal Pradesh and Jammu and Kashmir would not only help in the speedier all-round development of the Himalayan States thereby taking the country high on the growth map but would also act as a coordinating agency amongst the people of the States of the Himalayan region.

Hence this Bill.

A sum of rupees four hundred crore is also likely to be involved as non-recurring expenditure.
