Savings.

35 16. The Central Government may by notification in Official Gazette make rules for carrying out the purposes of this Act.

Power to make rules.

STATEMENT OF OBJECTS AND REASONS

India is the second most populous country after China with largest birth rate in the World. China's annual rate of population growth has been 0.6 per cent, against India's 1.4 per cent. Our population is around 1.3 billion, and is increasing every moment. Around 2030, India will become the most populous country on the earth—with a population of 1.6 billion by 2050. Our global land area is 2.4 per cent, but we have more than sixteen per cent of the global population making it the most densely populated nation of the world. This scenario is compelling as half the population lives in slums and under squalid conditions. This has caused over crowding due to which law and order situation also is deteriorating. Unemployment is rising rapidly causing frustration amongst the unemployed, particularly the youth who are being lured by anti-national and anti-social elements. There is unparallel transformation of human values, social institutions and economic structures. Agriculture land holdings are becoming smaller and smaller and uneconomical and farmers are committing suicides due to this fact. The housing needs are far beyond the available finances and the shortage is appalling. Educational facilities are becoming hoplessly poor. Overcrowding is also causing environmental degradation. Jungles are vanishing for fuel, construction, furniture and for funeral purposes which has resulted water shortage and less rain and increased carbon-dioxide in the environment resulting in harmful diseases. The healthcare facilities are far from satisfactory and if, the population is not stabilised, we can hardly expect to achieve quality life and the situation will become from bad to worse.

It is, therefore, imperative that effective steps must be taken to check the increasing population. A clear message must go across the nations that since our resources are limited, we have to opt for smaller families. It is very unfortunate that despite availability of various birth control measures and several Family Planning Programmes, the population continues to rise menacingly. This Bill is a step towards population stabilization in the country.

Hence this Bill.

SHADI LAL BATRA

FINANCIAL MEMORANDUM

Clause 5 of the Bill provides certain benefits to Government employees who adopt small family norm. Clause 6 provides for extension of benefits to general public who adopt small family norm. Clause 12 lays down that Central Government shall provide requisite funds from time to time for carrying out the purposes of the Bill. The Bill, therefore, if enacted, would involve expenditure from the Consolidated Fund of India. The Bill, therefore, will involve an annual recurring expenditure of about rupees one hundred crore out of the Consolidated Fund of India. A non-recurring expenditure of about rupees fifty crore is also likely to be involved.

MEMORANDUM REGARDING DELEGATED LEGISLATION

Clause 16 of the Bill gives power to the Central Government to make rules for carrying out the purposes of the Bill. The rules will relate to matters of details only. The delegation of legislative power is of normal character.

RAJYA SABHA

A

BILL

to provide for the promotion of family planning measures by the Central and State Governments for population stabilization in the country through various incentives and disincentives so as to ensure that the population is commensurate with its social, economic and other developments and with the ecological balance and bridge the gap between the haves and have nots and for achieving quality of life and for matters connected therewith and incidental thereto.
