#### STATEMENT OF OBJECTS AND REASONS

Several persons come to big cities in search of livelihood as scant opportunities exist in their villages. They stay back in the big cities and most of them live around the railway tracks as they do not have the means to afford the expenses of big cities and they also have a burden on their shoulders to send some money out of their earnings to their families back home. In such a scenario, they are forced to live in sub-human conditions. They do not have toilets and are forced to defecate in the open in all types of weather *i.e.* scorching heat or rain. They do not have access to drinking water and have to travel long to fetch water for daily needs. Their children do not get to study. There are no healthcare facilities available to them also. Since ours is a welfare state, it is the duty of the Government to take care of its citizens who are not in a position to take care of themselves. This is high time to address this important issue as these poor people are essential part of our society.

Hence this Bill.
