STATEMENT OF OBJECTS AND REASONS

Despite the unabated female foeticides and dwindling population of girls in the country and the conservative attitude of the society towards women, more and more women are venturing out of their houses to work to support their families. As a result, the number of working women in government services, factories, industries, commercial establishments, agriculture, mines, fish processing sector, silk industry and so on so forth is increasing day by day, but their conditions of employment need amelioration. Various basic and essential facilities which are supposed to be made available to the working women by the government and private employers are either absent or not adequate and satisfactory. Unfortunately, in most of the private sector including agricultural sector, the facilities are rather minimal or negligible and the working women are an exploited lot there. The existing labour laws also do not provide for proper medical, educational, recreational and other facilities for the working women and their children. As regards, other social security causes like security, transport, accommodation has also not been made so far. In many establishments they are not given equal work. This discrimination has to be stopped.

Hence it has become necessary to provide adequate welfare measures for the working women.

Hence this Bill.
