ANSWER

THE MINISTER OF STATE IN THE MINISTRY OF POWER

(SHRI K.C. VENUGOPAL)

(a) & (b):The unallocated power of Central Generating Stations of Western Region has not been reduced and it remains at around 1375 MW. The unallocated Power of Central Generating Stations (CGSs) is allocated to the States /UTs is revised from time to time, generally keeping in view factors like emergent and seasonal nature of the requirement, relative power supply position, utilization of existing generation and other power sources, operational and payment performance of the States/UTs of the region. The quantum of unallocated power being limited and it being fully allocated at any point of time, the enhancement in allocation of any State/UT in a region is feasible only by way of equivalent reduction in the allocation of other State(s)/UT(s) of the region. The allocation of unallocated power Central Generating Stations of Western Region was revised with effect from 29th January, 2011 as per details given below:
