

GOVERNMENT OF INDIA
MINISTRY OF COOPERATION

RAJYA SABHA
UNSTARRED QUESTION NO.1122
TO BE ANSWERED ON 27/07/2022

Digitalization of Co-operatives

1122. Shri Naresh Bansal:

Will the Minister of Cooperation be pleased to state:

- (a) the number of cooperatives in the country which are yet to be digitized, State-wise and sector-wise;
- (b) by when Government plans to digitalize all the cooperatives of country including Uttarakhand; details thereof;
- (c) the amount of fund that has been allocated till date and that has been utilized for the digitization of the cooperatives during the last five years, year-wise and sector-wise; and
- (d) what changes has the cooperatives shown after digitalization, specially in Uttarakhand?

ANSWER

THE MINISTER OF COOPERATION
सहकारितामंत्री(SHRI AMIT SHAH)

(a) to (d): There are about 8.54 lakh cooperatives in the country. State-wise and sector-wise distribution of cooperatives is enclosed at Annexure-I. The Cooperative Societies are registered under the respective State Government Laws. Those cooperative societies for which area of operation is more than one state are registered under Multi-State Cooperative Societies Act, 2002. The cooperatives are separate legal entities and their day-to-day administration is run by their Board of Directors who take decision with regard to the management of society including its digitization etc. There is no such National Database which captures the status of digitization of each cooperative society in the Country.

However, in order to digitize the Primary Agricultural Credit Societies (PACS), Government of India has recently approved Computerization of PACS project on 29th June 2022 to computerize 63,000 functional PACS, in next three years, across the country including the State of Uttarakhand with an outlay of Rs. 2516 crores.

The 'Computerization of PACS' project will help in having fully automated system catering to both credit and non-credit business at the PACS level. The PACS will become more efficient in their operations and will ensure speedy disposal of loans, lower transition cost, faster audit and reduction in imbalances in payments and accounting with State Cooperative Banks and District Credit Cooperative Banks. It will bring transparency and enhance trustworthiness in the working of PACS among farmers. It will also bring financial inclusion and provide digital literacy to the farmers. After computerization, PACS will also become nodal service delivery point for Interest Subvention Scheme (ISS), PMFBY, Direct Benefit Transfer (DBT) for various services and provision of inputs like fertilizers, seeds etc. This pan India IT project will also act as a bedrock for further reforms of the Cooperative Sector at the grassroot level.
