Will the Minister of PETROLEUM AND NATURAL GAS be pleased to state:

- (a) the new gas reserves that have been identified to increase the production of natural gas in the country;
- (b) by when the commercial production from these reserves is likely to commence; and
- (c) the gas reserves in terms of million cubic meters that have been garnered in these reserves?

ANSWER

THE MINISTER OF STATE IN THE MINISTRY OF PETROLEUM & NATURAL GAS

(SHRI RAMESWAR TELI)

(a) to (c) : As on 01.04.2022, new gas reserves having estimated 2P (Proven+ Probable) gas reserves of 90,087 Million Cubic Meters, have been identified to increase natural gas production in the country. The projects are under various stages of development and commercial gas production from most of these new gas reserves is expected from Financial Year 2023-24 onwards.
