- (b) the details of projects that have been undertaken under PM Gati Shakti in Andhra Pradesh;
- (c) the details of funds allocated, sanctioned, released and utilized for projects that have been undertaken under PM Gati Shakti in AP;
- (d) whether targets have been set for the above projects and, if so, details thereof; and
- (e) the efforts being made by the Ministry for timely completion of the projects?

**ANSWER**

THE MINISTER OF ROAD TRANSPORT AND HIGHWAYS

(SHRI NITIN JAIRAM GADKARI)

(a) The PM Gati Shakti National Master Plan (NMP) was launched in October 2021 with a vision to enable a mechanism for coordinated planning and to provide a bird's eye view of planned development to all the Ministries for holistic and integrated development. PM Gati Shakti NMP envisages the creation of a system for inter-connected and multimodal transportation networks leading to integrated economic and infrastructure development, improved trade competitiveness, promotion of exports and employment generation. It envisages establishing integration and synergy amongst different infrastructure sector projects such as National Highways, Railways, Waterways, Telecom, etc., catering to development requirements/ logistic supports of different sectors and industries (e.g. Steel, Power, Fertilizers, Coal, etc.). The NMP will rely on creation of various data layers including geographical features, land records, etc., to facilitate coordinated and integrated planning, project preparations and implementations, optimization of logistics arrangements and efficient transportation systems.

(b) to (d) PM Gati Shakti NMP provides the overall framework for planning, sanctioning and execution of projects. There are no separate funds allocated under PM Gati Shakti NMP. The budget is allocated NH projects-wise, as per project requirements, within the sanctioned project costs. However, the details of projects under Bharatmala & NH(O) in the State of Andhra Pradesh are annexed.

(e) The Ministry closely monitors various issues that affect project implementation such as land acquisition, encroachment removal, law & order issues, utility shifting, non-availability of soil/aggregate, environment/forest/wildlife clearances, ROB & RUB issues, contractual issues, etc. Regular reviews are held with all stakeholders including State Governments and other Central Ministries/Departments to resolve these issues and ensure timely completion of projects. Progress of projects is monitored through advanced digital platforms such as BhoomiRashi, Project Monitoring Information System (PMIS) and Data Lake.
