

GOVERNMENT OF INDIA  
MINISTRY OF JAL SHAKTI,  
DEPARTMENT OF WATER RESOURCES, RIVER DEVELOPMENT & GANGA REJUVENATION

**RAJYA SABHA**

**UNSTARRED QUESTION NO. 592**

ANSWERED ON 12.12.2022

**IMPLEMENTATION OF RAIN WATER CONSERVATION PROGRAMME**

592 DR. ASHOK KUMAR MITTAL

SHRI S. SELVAGANABATHY

Will the Minister of JAL SHAKTI be pleased to state:

- (a) whether Government has taken adequate measures for effective implementation of Rain Water Conservation Programme and if so, the details thereof;
- (b) the financial assistance given to various States especially Puducherry and Punjab during each of the last three years and the current year;
- (c) whether Government proposes to evolve any new technology for harvesting of rain water and if so, the details thereof; and
- (d) whether Government has undertaken any work/project for desilting of check dams to rejuvenate its capacity for conservation of rain water and if so, the details thereof?

**ANSWER**

THE MINISTER OF STATE FOR JAL SHAKTI

(SHRI BISHWESWAR TUDU)

(a) Water is a State subject and the Central Government supplements the efforts of the States on water conservation and recharge, including rainwater conservation and its harvesting, through technical and financial support.

Government of India has been implementing various schemes for rainwater conservation and its harvesting. Major schemes/ programmes implemented by the Government inter-alia for promoting rainwater conservation include Mahatma Gandhi National Rural Employment Guarantee Scheme (MGNREGS), Atal Mission for Rejuvenation and Urban Transformation (AMRUT), Atal Bhujal Yojana (ATAL JAL) and Pradhan Mantri Krishi Sinchayee Yojana (PMKSY).

Government of India has initiated 'Jal Shakti Abhiyan' (JSA) in 1,592 blocks of 256 water-stressed districts of the country during July to November 2019 to promote water conservation and water resource management by focusing on water conservation & rainwater harvesting, renovation of traditional and other water bodies/ tanks, reuse & recharge of bore wells, watershed development and intensive afforestation. Third in the series of JSA, 'Jal Shakti Abhiyan: Catch The Rain' (JSA:CTR) in the current year has been launched on 29 March, 2022 in all districts (rural as well as urban areas) of the country with the main theme "Catch the Rain, where it falls, when it falls". Water conservation and rainwater harvesting is one of the focused interventions of the campaign. States are converging resources from available Central schemes,

State funds, 15th Finance Commission grants etc. to implement the Jal Shakti Abhiyan. Details of steps taken by the Government to promote rainwater conservation are at **Annexure-I**.

Government of India is also implementing Jal Jeevan Mission (JJM) in partnership with States to enable every rural household to have tap water supply by 2024. Provision has been made for the preparation of Village Action Plan (VAP) by village community, which inter alia includes strengthening of drinking water sources including rain water harvesting in convergence with other schemes such as MGNREGS, Finance Commission grants to rural local bodies/ PRIs, MP & MLA's Local Area Development Fund, District Mineral Development Fund, CSR fund, etc.

**(b)** The State-wise details of expenditure under MGNREGS on water conservation and water harvesting for the last three years and in the current year are given at **Annexure-II**. The State-wise details of Central Assistance given to various States during 2018-19 to 2022-23 under Surface Minor Irrigation (SMI) and Repair, Renovation & Restoration of Water Bodies (RRR of WBs) of PMKSY are given at **Annexure-III** and the details of Central Assistance released during 2018-19 to 2021-22 under Watershed Development Component of PMKSY are given at **Annexure-IV**. Financial assistance of Rs. 2 lakh is released to each district in two installments of Rs. 1 lakh each for GIS mapping of water bodies and preparation of scientific water conservation plans under JSA:CTR. The details of funds released under JSA:CTR-2021 and JSA:CTR-2022 including Puducherry and Punjab are given at **Annexure-V**. The details of budgetary allocation, fund drawn & reported utilization by States/ UTs, including Puducherry and Punjab, under JJM for 2019-20, 2020-21, 2021-22 and 2022-23 are at **Annexure VI**. Details of Central Assistance given to States/ UTs for project implementation under the AMRUT during 2019-20 to 2022-23 are at Annexure-VII and the details of Central Assistance given to States/ UTs against approved State Water Action Plan (SWAP) and Special State Water Action Plan (SSWAP) under AMRUT 2.0 are at **Annexure-VIII**.

**(c)** Usage of new and advanced technology for harvesting of rainwater is a continuous process and varies from region to region depending upon the climate, soil-strata and other related factors. The Ministry of Jal Shakti incentivizes usage of new and advanced technology in water conservation through the National Water Awards. Atal Mission for Rejuvenation and Urban Transformation (AMRUT) has a component of technology sub-mission which helps in identifying proven and potential global technologies in water sector including technology for harvesting of rainwater. Indian Council of Agriculture Research (ICAR) has developed improved water harvesting technologies. ICAR also provides technical backstopping to various schemes/ programmes of the Government and imparts trainings to farmers/stakeholders on rainwater conservation as and when required. Various technologies commonly used for rain water harvesting have been described in the "Manual on Artificial Recharge of Ground Water" available in the public domain at the following URL: <http://cgwb.gov.in/documents/Manual-Artificial-Recharge.pdf> and also in "Master Plan for Artificial Recharge to Ground Water in India - 2020", in <http://cgwb.gov.in/Master%20Plan%20to%20GW%20Recharge%202020.pdf>.

**(d)** Maintenance of existing rainwater harvesting structures & creation of new check dams/ponds; renovation of traditional water harvesting structures; removal of encroachments of tanks/lakes and in their catchment channels and de-silting of tanks have been undertaken in the 'Jal Shakti Abhiyan: Catch The Rain' campaign. Besides, Ministry of Jal Shakti has also been implementing Surface Minor Irrigation (SMI) and Repair, Renovation & Restoration (RRR) of Water Bodies. Among other things, one of the major objectives of the SMI & RRR schemes relate to augmentation of capacity of Check Dams for rain water conservation.

**ANNEXURES REFERRED TO IN REPLY TO PART (a) OF UNSTARRED QUESTION NO. 592 ANSWERED IN RAJYA SABHA ON 12.12.2022 REGARDING “IMPLEMENTATION OF RAIN WATER CONSERVATION PROGRAMME”**

**Details of steps taken by the government to promote rain water conservation**

I. MoHUA has formulated guidelines for the States to adopt measures suitable to local conditions, such as Unified Building Bye Laws (UBBL) of Delhi, 2016, Model Building Bye Laws (MBBL), 2016 and Urban and Regional Development Plan Formulation and Implementation (URDPFI) Guidelines, 2014 with adequate focus on requirement of rainwater harvesting and water conservation measures in these guidelines.

II. 15th Finance Commission grants have been released to States to be utilised through Rural Local Bodies. Financial assistance given to various states under 15th Finance Commission tied grants can be inter alia utilised for rainwater harvesting and water recycling. A manual for 15th Finance Commission tied grants to Rural Local Bodies/ Panchayat Raj Institutions for water & sanitation is shared by Department of Drinking Water and Sanitation with States/UTs which is available in public domain at: <https://jalshakti-ddws.gov.in/sites/default/files/FFC 22-10-21 English.pdf>

III. Central Ground Water Authority (CGWA) grants No Objection Certificates (NOCs) for ground water abstraction to industries, infrastructure units and mining projects in feasible areas in certain States/UTs where regulation is not being done by the respective State/UTs. The latest guidelines for control and regulation of groundwater extraction with pan-India applicability was notified by the Ministry on 24 September 2020 which envisage that the proponents shall install roof top rain water harvesting & recharge systems in the project area in order to obtain NOC.

IV. Master Plan for Artificial Recharge to Groundwater - 2020 has been prepared by CGWB in consultation with States/UTs which is a macro level plan indicating various structures for the different terrain conditions of the country including estimated cost.

V. A Model Bill has been circulated to all the States/UTs to enable them to enact suitable ground water legislation for regulation of its development, which includes provision of rainwater harvesting. So far, 19 States/UTs have adopted and implemented the ground water legislation.

VI. A nationwide programme of “National Aquifer Mapping and Management (NAQUIM)” for mapping of aquifers, their characterization and development of aquifer management facilitate sustainable development of ground water resources.

VII. National Water Policy (2012) has been formulated by the Department of Water Resources, River Development and Ganga Rejuvenation which inter alia advocates rainwater harvesting and conservation of water and highlights the need for augmenting the availability of water through direct use of rainfall.

VIII. Besides the above, mass awareness programmes like trainings, seminars, workshops, exhibitions, etc. are conducted from time to time under the Information, Education & Communication (IEC) Scheme in various parts of the country to promote rainwater conservation and its harvesting.

## ANNEXURE-II
