- (b) The number of startups that have received the TIDES grant, against their decided allocation;
- (c) Whether Government plans to increase the number of seats made available under the scheme;
- (d) if so, the details thereof; and
- (e) if not, the reasons therefor?

ANSWER

MINISTER OF STATE FOR ELECTRONICS AND INFORMATION TECHNOLOGY
(SHRI RAJEEV CHANDRASEKHAR)

(a): Ministry of Electronics & Information Technology (MeitY) has initiated Technology Incubation and Development of Entrepreneurs (TIDE 2.0) Scheme in the year 2019 with an aim to promote technology based entrepreneurship through financial and technical support to incubators. The scheme had provisions to support 51 incubators in institutes of higher learning and premier R&D organizations pan India. All the 51 Centres have been supported under the scheme and are functional since last quarter of FY 2020-21. State/ UT-wise break up of all the 51 TIDE 2.0 Incubation Centres are annexed at **Annexure-I**. Under the scheme, out of the 3000+ applications received, 826 startups have been on boarded till date. State-wise and year-wise number of startups being supported through financial assistance under TIDE 2.0 scheme is annexed at **Annexure-II**.

(b): Subsequent to the approval of TIDE 2.0 Scheme in February 2019, this Ministry had received a total of 172 applications from leading incubators across India in two phases. Out of which 51 TIDE 2.0 centres were screened, shortlisted and made operational since last quarter of FY 2020-21. These Centres were also operational during the crucial first and second wave of Covid-19 pandemic either virtually or physically as possible under severe limitations. With regard to supporting the startups under the scheme, as of now 826 startups have received the TIDE grants out of the decided allocation of 1200 startups for three years.

(c) to (e): The scheme had proposed to support 51 incubation centres pan India and all the centres have been made operational. As on date, there is no proposal to increase the number of seats being supported under the TIDE 2.0 Scheme in the coming years. Also, to spur the technology startup ecosystem in the country, an umbrella program Gen-Next Support for Innovative Startups (GENESIS) is being explored to discover, support, grow and make successful startups especially in Tier-II and Tier-III cities and towns.
