(a) & (b)

Through Gaganyaan, India's maiden human spaceflight programme, ISRO is engaged in development of various technologies, which are essential building blocks for human space missions. The objective of the Gaganyaan programme is the demonstration of human spaceflight capability to Low earth orbit. Future missions will be taken up after the accomplishment of Gaganyaan mission. ISRO has also carried out a few feasibility studies for a sub-orbital space tourism mission onboard a liquid propellant stage booster.

(c) Does not arise.
