

GOVERNMENT OF INDIA  
MINISTRY OF ENVIRONMENT, FOREST AND CLIMATE CHANGE

**RAJYA SABHA**  
**UNSTARRED QUESTION No. 2610**  
TO BE ANSWERED ON 23.03.2023

**Functioning of NCAP**

2610. SMT. JEBI MATHER HISHAM:

Will the Minister of ENVIRONMENT, FOREST AND CLIMATE CHANGE be pleased to state:

- (a) the present status of the National Clean Air Programme (NCAP) launched in 2019 to reduce particulate matter pollution, the details thereof, city-wise;
- (b) the circumstances in which Government set a new target of reduction in particulate matter concentration as 2026 instead of 2024;
- (c) the details of funds that have so far been disbursed to the cities since the inception of NCAP, city-wise;
- (d) the number of stations, out of the 1500 air quality monitoring stations, which have already been installed, the details thereof; and
- (e) whether Government will release a white paper on the functioning of NCAP?

**ANSWER**

MINISTER OF STATE IN THE MINISTRY OF ENVIRONMENT, FOREST AND CLIMATE CHANGE  
(SHRI ASHWINI KUMAR CHOUBEY)

**(a), (b),(c), (d) & (e):**

Ministry of Environment Forest & Climate Change (MoEF&CC) launched National Clean Air Programme (NCAP) in January, 2019 and is a long-term, time-bound, national level strategy for prevention, control and abatement of air pollution. Under NCAP, it has been envisaged to achieve reduction by 20-30% in Particulate Matter (PM10) concentrations over baseline in year 2017-18 by 2024-25 in targeted 131 cities. To ensure clean air to all the people of the country, assuring them a healthy and productive life, Government has announced the intent and plan to improve the air quality in more than 100 cities through holistic approach. Subsequently, the target has been revised to achieve reduction in PM10 levels up to 40% or achievement of national ambient air quality standards (60 microgram/cubic meter) by 2025-26.

95 cities out of 131 cities have shown improvement in air quality in terms of annual PM10 concentrations in FY 2021-22 with respect to the baseline of FY 2017-18. 20 cities have met National Ambient Air Quality Standards (NAAQS) for PM10 (60 µg/m<sup>3</sup>) in FY 2021-22. Details of air quality of 95 cities are enclosed at **Annexure-I**.

Year-wise details of funds released to 131 cities since the launch of NCAP during FY 2019-20 till FY 2022-23 are enclosed at **Annexure-II**.

1340 number of Ambient Air Quality Monitoring Stations have been established in 489 cities in the country for monitoring the ambient air quality. Details of monitoring stations in these cities are provided at **Annexure-III**.

\*\*\*

## Annexure-I

## Details of air quality data of 95 cities under National Clean Air Programme (NCAP)
