Prices of petrol and diesel have been market-determined with effect from 26.06.2010 and 19.10.2014 respectively. Since then, the Public Sector Oil Marketing Companies (OMCs) take appropriate decision on pricing of petrol and diesel. Prices of petrol and diesel have not been increased by public sector Oil Marketing Companies (OMCs) since 6<sup>th</sup> April 2022.

The Central Government has reduced Central Excise duty by a total of Rs. 13/ litre and Rs. 16/ litre on petrol and diesel respectively in two tranches in November 2021 and May 2022. The measure was aimed to give a further fillip to the economy and to boost consumption and keep inflation low, thus helping the poor and middle classes.
