(c): The Government of India has taken various policy and schematic measures to promote the medical devices sector, including launch of Production Linked Incentive (PLI) Scheme for promoting Domestic Manufacturing of Medical Devices with total financial outlay Rs. 3,420 crore. In another PLI Scheme for Pharmaceuticals with a total outlay of Rs. 15,000 cr., one of the category included is In-Vitro Diagnostic (IVD) medical devices. Under the scheme for Promotion of Medical Devices Parks financial assistance of Rs. 100 crore each to 4 selected States/Union Territories is provided for creation of Common Infrastructure Facilities.

Under the scheme Assistance to Medical Device Clusters for Common Facilities (AMD-CF) the government is providing financial incentive to Medical devices clusters to develop common infrastructure facilities like Medical devices testing labs, E-waste treatment facility, logistic centers. The scheme also provides financial assistance to National or State level Government or Private institutions interested to establish or strengthen testing facilities for medical devices. In addition, the Department has recently notified Medical Devices Policy and has set up Export Promotion Council for Medical Devices.
