

GOVERNMENT OF INDIA
MINISTRY OF JAL SHAKTI
DEPARTMENT OF WATER RESOURCES, RIVER DEVELOPMENT & GANGA REJUVENATION
RAJYA SABHA

UNSTARRED QUESTION NO. 2027

ANSWERED ON 07.08.2023

DECLINE IN WATER TABLE

2027#. SHRI RAKESH SINHA

Will the Minister of **JAL SHAKTI** be pleased to state:

- (a) the number of districts in the country having witnessed a decline in water table during the last five years, the name-wise details thereof;
- (b) the number of districts in the country having witnessed an increase in water table during the last five years, the name-wise details thereof; and
- (c) the steps taken to preserve the water table in the country?

ANSWER

THE MINISTER OF STATE FOR JAL SHAKTI

(SHRI BISHWESWAR TUDU)

(a)& (b) Central Ground Water Board (CGWB) is periodically monitoring the ground water levels throughout the country on a regional scale, through a network of monitoring wells. In order to assess the ground water level fluctuation in last five years, the water level data collected by CGWB during November 2022 has been compared with the mean of November, 2017-2021 groundwater level data. Analysis of water level data indicates decline in water level in more than or equal to two-third of total monitored wells in 119 districts in 20 States/UTs. Details are given in **Annexure I**.

Further, comparison of depth to water level fluctuation data of November 2022 with mean data [November (2017 to 2021)] shows rise in water level in more than or equal to two-third of total monitored wells in 235 districts in 26 States/UTs. Details are given in **Annexure II**.

(c) Water being State subject, the efforts to improve and manage groundwater conditions including preserving the water table fall under States' mandate, however, a number of steps has been taken by Central Government in this regard which can be seen at

<https://cdnbbsr.s3waas.gov.in/s3a70dc40477bc2adceef4d2c90f47eb82/uploads/2023/02/2023021742.pdf> Some of them are listed as under.

- i. Government of India is implementing Jal Shakti Abhiyan (JSA) in the country. First JSA was launched in 2019 in water stressed blocks of 256 districts which continued during the years 2021-2022 also (across entire country both rural and urban areas) with the primary aim to effectively harvest the monsoon rainfall through creation of artificial recharge structures, watershed management, recharge and reuse structures, intensive afforestation and awareness

generation etc. JSA for the year 2023 have been launched by Hon'ble President of India 04 March 2023 with the theme "Source Sustainability for Drinking Water".

- ii. Hon'ble Prime Minister has launched Amrit Sarovar Mission on 24th April 2022. The Mission is aimed at developing and rejuvenating 75 water bodies in each district of the country as a part of celebration of Azadi ka Amrit Mahotsav.
- iii. The Central Government is implementing Atal Bhujal Yojana with an outlay of Rs. 6,000 crore, in collaboration with States, in certain water stressed areas of Gujarat, Haryana, Karnataka, Madhya Pradesh, Maharashtra, Rajasthan and Uttar Pradesh. The primary aim of the scheme is demand side management through scientific means involving the local communities at village levels leading to sustainable groundwater management in the targeted areas.
- iv. Central Ground Water Authority (CGWA) has been constituted under section 3(3) of the "Environment (Protection) Act, 1986" for the purpose of regulation and control of ground water by industries, mining projects, infrastructure projects etc in the country. The guideline in this regard with pan-India applicability was notified by the Ministry on 24 September 2020 with subsequent amendment on 29 March 2023. CGWA and States issue No Objection Certificate (NOC) for extraction of groundwater to various industries/project proponents as per their jurisdiction and as per the extant guidelines.
- v. CGWB is implementing National Aquifer Mapping Program (NAQUIM) in the country and an area of 25.15 lakh sq km (the available mappable area) has been covered under the NAQUIM studies. The NAQUIM study report along-with management plans are shared with States/UTs for suitable interventions.
- vi. Master Plan for Artificial Recharge to Groundwater- 2020 has been prepared by the CGWB in collaboration with States/UTs providing a broad outline of the project and expected investments. The Master Plan envisages construction of about 1.42 crore Rain water harvesting and artificial recharge structures in the Country to harness 185 Billion Cubic Metre (BCM) of water. The Master plan has been shared with States/UTs for suitable interventions.

ANNEXURE REFERRED TO IN REPLY TO PART (a) & (b) OF UNSTARRED QUESTION NO. 2027 TO BE ANSWERED IN RAJYA SABHA ON
07.08.2023 REGARDING “DECLINE IN WATER TABLE”

Depth to Water Level Fluctuation (decline) with Mean [November (2017 to 2021)] and November 2022
