The Department of Health & Family Welfare, Government of India provides technical and financial support to the States/UTs under the National Programme for Prevention and Control of Non Communicable Diseases (NP-NCD), as part of National Health Mission (NHM), based on the proposals received from the States/UTs and subject to the resource envelope. Diabetes is an integral part of the programme. The programme focusses on strengthening infrastructure, human resource development, health promotion & awareness generation for prevention, early diagnosis, management and referral to an appropriate level of healthcare facility for treatment of the Non-Communicable Diseases (NCDs). Under NPCDCS, 724 District NCD Clinics, 210 District Cardiac Care Units, 326 District Day Care Centres and 6110 Community Health Centre NCD Clinics have been set up.

Diabetes patients are getting treatment at various health facilities in the health care delivery system including District Hospitals, Medical Colleges, Central Institutes like AIIMS, Central Government hospitals, and private sector hospitals. The treatment in Government Hospitals is either free or highly subsidized for the poor and needy.

Under NP-NCD, glucometer and drugs for diabetes are provided as per the proposals received from the states. Under Free Drugs Service Initiative of NHM, financial support is provided to States/UTs for provision of free essential medicines including insulin for poor and needy people. Furthermore,

quality generic medicines including insulin are made available at affordable prices to all, under 'Pradhan Mantri Bhartiya Janaushadhi Pariyojana (PMBJP), in collaboration with the State Governments.

A population-based initiative for prevention, control and screening for common Non-Communicable Diseases (NCDs) i.e., diabetes, hypertension and common cancers has been rolled out in the country under NHM and also as a part of Comprehensive Primary Health Care. Under the initiative, persons more than 30 years of age are targeted for their screening for common NCDs. Screening of these common NCDs is an integral part of service delivery under Ayushman Bharat – Health and Wellness Centres.

Preventive aspect of Cardiovascular Diseases is strengthened under Comprehensive Primary Health Care through Ayushman Bharat Health Wellness Centre scheme, by promotion of wellness activities and targeted communication at the community level. In addition, NPCDCS gives financial support under NHM for awareness generation (IEC) activities for Diabetes to be undertaken by the States/UTs as per their Programme Implementation Plans (PIPs). Other initiatives for increasing public awareness about Diabetes and for promotion of healthy lifestyle includes observation of World Diabetes Day and use of print, electronic and social media for continued community awareness. Furthermore, healthy eating is also promoted through FSSAI. Fit India movement is implemented by Ministry of Youth Affairs and Sports, and various Yoga related activities are carried out by Ministry of AYUSH.
