

GOVERNMENT OF INDIA
MINISTRY OF ENVIRONMENT, FOREST AND CLIMATE CHANGE

RAJYA SABHA
UNSTARRED QUESTION NO. 1340
TO BE ANSWERED ON 14.12.2023

Provisions of pollution related legislations

1340. SHRI NARANBHAI J. RATHWA:

Will the Minister of ENVIRONMENT, FOREST AND CLIMATE CHANGE be pleased to state:

- (a) the broad nature of violations of provisions of pollution related legislations due to which big industrial Units could be ordered to be closed down permanently;
- (b) whether State Pollution Boards allow re-opening of the industrial Units once they comply with pollution related requirements;
- (c) if so, the guidelines of Central Pollution Control Board in this regard; and
- (d) the number of big industrial Units which have been allowed to re-open after the fulfillment of pollution related norms along with names of such industrial Units?

ANSWER

MINISTER OF STATE IN THE MINISTRY OF ENVIRONMENT, FOREST AND CLIMATE CHANGE
(SHRI ASHWINI KUMAR CHOUBEY)

(a) to (c) The emission & effluent standards for various Industrial Sectors are notified under Environmental (Protection) Act, 1986 to ensure that under certain operating conditions emission/ effluent concentration doesn't exceed the set values attainable with available pollution control technologies. Besides the Consent to Establish and Consent to Operate conditions, there are various air and water quality parameters notified for Industrial Units and common facilities. Compliance verification as per the Water (Prevention and Control of Pollution) Act 1974, the Air (Prevention and Control of Pollution) Act 1981, the Environment (Protection) Act 1986 are done through systematic inspection of an industrial facility before issuing any directions under the Environment (Protection) Act, 1986, as the case may be.

The State Pollution Control Board (SPCBs) /Pollution Control committees (PCCs) PCCs are empowered to issue show cause notice or closure directions under section 33 A of the Water Act,1974 and 31 A of the Air Act, 1981 for the violations of conditions/norms as outlined above and revoked under same section after compliance of directions by such Units.

The Central Pollution Control Board (CPCB) has devised a 'Standard Protocol for Conducting Inspections, Report Preparation and Action'. Actions against violators are taken based on the guidelines prescribed in this protocol. Closure directions under Section 5 of the Environment (Protection) Act, 1986 are issued to an Industrial Unit if it is found grossly non-complying with

regard to prescribed environmental standards and other shortcomings which have potential to cause grave injury to the environment.

To get the closure directions revoked, concerned industry is required to submit duly notarized status of compliance of directions and self-certificate of closure compliance to CPCB. After verification of the compliance by CPCB/SPCB, closure directions are revoked, and industry is allowed to operate.

d) Since, 2016, based on the Online Continuous Effluent/ Emission Monitoring Systems (OCEMS) alerts, CPCB has inspected 891 industrial Units, out of which 407 Units were found non-complying with environmental norms. Based on the severity of violations, closure directions were issued to 188 industrial Units, out of which 164 Units later complied with the prescribed environmental norms as a result of which closure directions for such Units were revoked. For remaining Units, closure directions of CPCB are still operative.

List of 164 industrial Units for which closure directions were revoked is given at **Annexure-I**. Copies of aforementioned directions that are issued to defaulter industrial Units are uploaded on following website of Central Pollution Control Board <https://cpcb.nic.in/cpcb-directions-5ep.php>

Annexure I

List of Units - Closure directions revoked by CPCB
