**ANSWER  
MINISTER OF COAL AND MINES  
(SHRI G. KISHAN REDDY)**

**(a):** The thrust of the Government is on increasing the domestic production of coal and to reduce non-essential import of coal in the country. Most of the requirement of coal in the country is met through indigenous production. In the year 2023-24, production of coal in the country was 997.828 Million Tonne (MT) (provisional) in comparison to 893.19 MT in the year 2022-23, with a growth of about 11.71 %. The coal production target for the FY 2024-25 has been fixed at 1080 MT.

**(b):** Yes sir. The exploration scheme of the Coal and Lignite has undergone improvement since 2021 including north-eastern region. Details are given below:
