

GOVERNMENT OF INDIA  
MINISTRY OF JAL SHAKTI  
DEPARTMENT OF WATER RESOURCES, RIVER DEVELOPMENT & GANGA REJUVENATION

**RAJYA SABHA**

**UNSTARRED QUESTION NO. 723**

ANSWERED ON 29.07.2024

**MEASURES TO ENSURE WATER CONSERVATION**

723. SMT. JEBI MATHER HISHAM

Will the Minister of **JAL SHAKTI** be pleased to state:

- (a) the effective measures which have been taken to ensure proper water conservation aiming that the country will not plunge into the state of water deficit, State-wise details for the last five years;
- (b) the quantum of expenditure made to ensure proper water conservation in the last five years; and
- (c) whether Government will take measures to set up desalination plants to ensure drinking water for the people living in the coastal area and details thereof?

**ANSWER**

**THE MINISTER OF STATE FOR JAL SHAKTI**

(SHRI RAJ BHUSHAN CHOUDHARY)

**(a) & (b)** Water is a State subject and the Central Government supplements the efforts of the States/UTs through technical and financial support. Water conservation is one of the foremost priorities of the Government to mitigate the effects of water stress in water deficit areas. Major steps taken by the Government for water conservation, supply etc , inter alia including rainwater harvesting, in the country in last five years or as available are as follows :

- i. Ministry of Housing & Urban Affairs (MoHUA) has taken several steps towards ensuring proper conservation of water in the country through issuance of various guidelines, implementation of National Missions i.e., Atal Mission for Rejuvenation and Urban Transformation (AMRUT) & AMRUT 2.0. Mission focuses on development of basic urban infrastructure especially water supply & access to tap connection to every household in 500 cities. Of the approved plan size of ₹77,640 crore, a significant amount of ₹39,011 crore (~50%) has been allocated for water supply sector. AMRUT 2.0 covers all the statutory towns of the country to ensure universal coverage of water supply & make cities 'water secure'. So far, 3,543 water supply projects costing about ₹1,13,358.44 crore have been approved by MoHUA. Additionally, 2,713 water body rejuvenation projects worth ₹ 5,432.21 crore have been approved by MoHUA under AMRUT 2.0. State wise details of the approved project are mentioned in **Annexure I**.
- ii. Central Ground Water Board (CGWB) has completed the National Aquifer Mapping (NAQUIM) Project in the entire mappable area of about 25 Lakh sq. km. The Aquifer maps and management plans have been prepared and shared with the respective State agencies for implementation. The management plans include various water conservation measures through recharge structures.

CGWB has also prepared a Master Plan for Artificial Recharge to Groundwater- 2020 in consultation with States/UTs which is a macro level plan indicating various structures for the different terrain conditions of the country including estimated cost. The Master Plan envisages construction of about 1.42 crore Rain water harvesting and artificial recharge structures in the country to harness 185 Billion Cubic Metre (BCM) of monsoon rainfall. The Master Plan for Artificial Recharge to Groundwater- 2020 has been circulated to all the States/UTs for implementation. Apart from this, CGWB has taken up various artificial recharge projects in the country. The state-wise expenditure incurred on Artificial Recharge interventions in the last five years (2019-2020 to 2023-24) is at **Annexure II**.

- iii. Department of Land Resources (DoLR) implements the Watershed Development Component of Pradhan Mantri Krishi Sinchayi Yojana (WDC-PMKSY) for the development of rainfed and degraded lands in the country. The activities undertaken, inter alia, include soil and moisture conservation, rainwater harvesting etc. Government of India approved continuation of programme as WDC-PMKSY 2.0 for the period 2021-22 to 2025-26. Under WDC-PMKSY 2.0, DoLR has till date sanctioned 1150 projects to States/UTs covering an area of 50.553 lakh ha at a total cost of Rs. 12388.58 crore (Central share: Rs 8073.85 crore) to 28 States and 2 UTs (J&K and Ladakh). Since inception of the scheme, an amount of Rs. 4102.06 crore has been released to the States as Central share (as on 23.7.2024). A state-wise detail is given at **Annexure III**.
- iv. The Ministry of Jal Shakti has been implementing Jal Shakti Abhiyan (JSA) since 2019 on an annual basis. JSA could not be implemented in 2020 due to Covid pandemic. In the current year, Jal Shakti Abhiyan: Catch the Rain (JSA: CTR) 2024, 5th in the series of JSAs has been launched by the Hon'ble Minister of Jal Shakti on 09.03.2024 for implementation in all the districts (rural as well as urban) of the country from 09.03.2024 to 30.11.2024. JSA: CTR is a convergence of various Central/State Government schemes/fund and funds like MGNREGS, Atal Mission for Rejuvenation and Urban Transformation (AMRUT), Per Drop More Crop, Repair, Renovation and Restoration Components under the Pradhan Mantri Krishi Sinchai Yojana (PMKSY), Compensatory Afforestation Fund Management and Planning Authority (CAMPA), Finance Commission grants, State Government schemes, Corporate Social Responsibility (CSR) funds etc.
- v. The works undertaken in JSA: CTR from 2021 to 2024 is at **Annexure IV**. The State-wise expenditure incurred under JSA: CTR from 2021 to 2024 { as available on the JSA: CTR portal ([jsactr.mowr.gov.in](http://jsactr.mowr.gov.in)) } for water conservation including rain water harvesting is at **Annexure V**.
- vi. Government of India is implementing Atal Bhujal Yojana, a Central Sector Scheme with a total outlay of Rs. 6,000 crore in 80 districts of Seven States viz. Gujarat, Haryana, Karnataka, Madhya Pradesh, Maharashtra, Rajasthan and Uttar Pradesh with an aim to arrest decline in ground water level through community led sustainable groundwater management. The scheme is being implemented from 01.04.2020 for a period of 5 years. The total funds released to states under Atal Bhujal Yojana as on 20.07.2024 is Rs 3332.68 Crore.

(c) Government of India is committed to make provision for safe & potable tap water supply in adequate quantity, of prescribed quality and on a regular & long-term basis to all rural households in the country. Towards this end, the Government of India launched the Jal Jeevan Mission (JJM), to be implemented in partnership with States, in August 2019. Drinking Water is a state subject, and hence, the responsibility of planning, approval, implementation, operation, and maintenance of drinking water supply schemes, including those under the Jal Jeevan Mission, lies with State/UT Governments. The Government of India supports the States by providing technical and financial assistance.

Under JJM, States have the flexibility to choose the appropriate technologies as per suitability to the geographical and local conditions. Further, keeping in view the difficulties faced by coastal States in providing rural water supply in coastal districts, following provisions have also been made in the Operational guidelines for the implementation of Jal Jeevan Mission on use of desalination plants:

“8.3.4 In coastal areas, augmentation of services can be done with energy efficient small desalination plants with high recovery ratio.”

\*\*\*

**ANNEXURE-I**

ANNEXURE REFERRED TO IN REPLY TO PART (a) & (c) OF UNSTARRED QUESTION NO. 723 TO BE ANSWERED IN RAJYA SABHA ON 29.07.2024 REGARDING “MEASURES TO ENSURE WATER CONSERVATION”.

**State wise Water body rejuvenation projects approved under Atal Mission for Rejuvenation and Urban Transformation (AMRUT 2.0)**
