ANSWER

MINISTER OF STATE FOR JAL SHAKTI (SHRI V. SOMANNA)

(a) to (c) Since August, 2019, Government of India is implementing Jal Jeevan Mission (JJM) in partnership with States to make provision of tap water supply to every rural household of the country including those in Uttar Pradesh.

At the time of announcement of Jal Jeevan Mission, in Uttar Pradesh, 5.16 Lakhs rural households were reported to have tap water connections. Since then, additional 2.19 Crore rural households have been provided tap water connections. Thus, as on 24.07.2024, provision of tap water supply has been made to 2.24 Crore (84.40%) households in the State. District wise details of households provided with tap water connection since launch of JJM, is at **Annex.**

State/UT-wise allocation of JJM funds is made at Central level. District-wise allocation within the State is done at State level and the details are also maintained at State level. The year-wise details of total fund allocation made and the quantum of fund utilized under JJM, as reported by State of Uttar Pradesh, are as under:

(Amount in Rs. Crore)

		Expenditure

Water is a state subject and therefore the primary responsibility for planning and implementing piped water supply schemes to provide tap water to their households, lies with the respective State/UT. However, Government of India has taken number of steps to plan and implement JJM in the whole country which *inter alia* includes discussion and finalization of annual action plan (AAP) in consultation with States/ UTs, regular review of planning and implementation, workshops/ conferences/ webinars for capacity building and knowledge sharing, field visits by multi-disciplinary team to provide technical support, etc. A detailed Operational Guideline for the implementation of JJM; Margdarshika for Gram Panchayats & VWSCs to provide safe drinking water in rural households and Guidelines on a special campaign to provide piped water supply in anganwadi centers, ashramshalas and schools have been shared with States/ UTs, to facilitate planning and implementation of Jal Jeevan Mission.

To bring transparency and effective monitoring, an online 'JJM dashboard' has been created, which provides State/ UT, district and village-wise progress as well as status of provision of tap water supply to rural homes. The dashboard can be accessed at:
