The scheme envisages a new generation of reforms to integrate and strengthen health service delivery and public health action. The measures under the scheme are aimed at strengthening health systems and institutions in order to provide a continuum of care at all levels, namely primary, secondary, and tertiary, as well as preparing health systems to respond effectively to current and future pandemics and disasters.

Under the CSS components of the scheme, following are the five activities where support is provisioned to the State/UTs during the scheme period (2021-2026):
