

GOVERNMENT OF INDIA  
MINISTRY OF PETROLEUM AND NATURAL GAS

**RAJYA SABHA**  
**STARRED QUESTION NO.112**  
ANSWERED ON 10/03/2025

**PIPELINE INFRASTRUCTURE FOR INJECTION OF CBG IN CGD NETWORK**

**\*112 SHRI SANA SATHISH BABU:**

Will the Minister of PETROLEUM AND NATURAL GAS be pleased to state:

- (a) whether the Central Government has set any target regarding the implementation of "Pipeline infrastructure for injection of Compressed Bio Gas (CBG) in City Gas Distribution (CGD) Network" initiative;
- (b) if so, the details regarding the same for the State of Andhra Pradesh and the current progress status;
- (c) details regarding the total number of beneficiaries for the City Gas Distribution Network initiative in the State of Andhra Pradesh in a district-wise manner, especially in Kakinanda district; and
- (d) details regarding the total number of beneficiaries under the scheme during the last three years, State-wise, district-wise in the State?

**ANSWER**

**MINISTER OF PETROLEUM AND NATURAL GAS**  
**(SHRI HARDEEP SINGH PURI)**

- (a) to (d) A statement is laid on the Table of the House

**STATEMENT REFERRED IN REPLY TO PARTS (a) to (d) OF THE RAJYA SABHA  
STARRED QUESTION NO. \*112 ASKED BY SHRI SANA SATHISH BABU TO BE  
ANSWERED ON 10<sup>th</sup> MARCH, 2025 REGARDING PIPELINE INFRASTRUCTURE FOR  
INJECTION OF CBG IN CGD NETWORK.**

(a) & (b) The Government has taken various steps towards creating a green energy ecosystem including production and utilization of various biofuels like Ethanol, Compressed Bio Gas (CBG), Green Hydrogen etc. To promote CBG, Government has initiated various schemes like Sustainable Alternative Towards Affordable Transportation (SATAT), financial assistance for procurement of Biomass Aggregation Machinery (BAM) and scheme for the development of pipeline infrastructure (DPI) for transportation of CBG into the City Gas Distribution (CGD) network. With these initiatives, 94 CBG plants with production capacity of about 650 TPD (tonnes per day) have already been commissioned and another 75 CBG plants with production capacity of about 550 TPD are in different stages of construction.

DPI scheme is intended to provide financial assistance (FA) for laying of pipeline connecting CBG plants with CGD network for CBG offtake in a cost-effective and environment friendly manner. The scheme has a total financial outlay of Rs. 994.50 crore during 2024-26 to support the development of CBG-CGD connectivity for 100 projects. Salient features of the Scheme are as follow:

- (i) FA for laying of pipeline (Steel/ Medium-Density Polyethylene (MDPE)) upto 50 km will be provided @ 50% of the project cost or Rs. 0.5 crore per km, whichever is lower. In case of connectivity where only MDPE pipeline is used the FA shall be restricted to 50% of project cost or Rs 0.075 crore per km, whichever is lower.
- (ii) FA for pipelines above 50 km will be provided at 50% of the additional cost for laying pipelines between 50-75 km, or Rs 0.15 crore per km, whichever is lower. In case of connectivity where only MDPE pipeline is used the FA shall be restricted to 50% of the project cost or Rs 0.075 crore per km, whichever is lower.
- (iii) FA will not be provided for any pipeline length beyond 75 km. However, beneficiaries can lay the pipeline beyond 75 km at their own expense.

The Scheme is applicable across the country including Andhra Pradesh. So far, no application has been received under the Scheme from Andhra Pradesh.

(c) & (d) Providing Piped Natural Gas (PNG) connections and establishment of Compressed Natural Gas (CNG) stations are part of the development of City Gas Distribution (CGD) Network and the same is being carried out by the entities authorized by Petroleum and Natural Gas Regulatory Board (PNGRB) as per their Minimum Work Programme (MWP). PNGRB has authorised 10 Geographical Areas (GAs) (including 1 GA spread over Andhra Pradesh, Karnataka & Tamil Nadu) covering all the districts including Kakinada district in State of Andhra Pradesh. As on 31.12.2024 the entities have established 246 CNG stations (including 13 CNG Stations in Kakinada against the MWP target of 9) and provided 2,91,383 PNG (Domestic) connections (including 66301 connections in Kakinada against the MWP target of 50,000) in the state of Andhra Pradesh (Annexure-I).

The total number of CNG stations commissioned and PNG (domestic) connections provided over the last three years in Andhra Pradesh is at Annexure-II
