ANSWER

THE MINISTER OF JAL SHAKTI

(SHRI C R PAATIL)

(a) to (f) : A statement is laid on the Table of the House.

STATEMENT REFERRED TO IN REPLY TO PARTS (a) TO (f) OF STARRED QUESTION NO. *73 TO BE ANSWERED ON 10.02.2025 IN RAJYA SABHA REGARDING “STATUS OF INTERLINKING OF RIVERS”

(a) to (d) In 1980, the Government of India formulated a National Perspective Plan (NPP) for Interlinking of Rivers (ILR) for transferring water from surplus basins to deficit basins/areas. The National Water Development Agency (NWDA) has been entrusted with the work of the ILR under the NPP. NWDA has identified 30 links (16 under Peninsular Component and 14 under Himalayan Component) under the NPP. Detailed Project Reports (DPRs) of 11 link projects, Feasibility Reports (FRs) of 26 links and Pre-Feasibility Reports (PFRs) of all the 30 links have been completed. The detailed status of ILR Projects under the NPP are given at **Annexure-I**.

Government of India is pursuing the ILR programme in a consultative manner and has accorded top priority to it. Concerted efforts at various levels have been made to build necessary consensus amongst the party States, for implementation of various ILR projects. Further, on the direction of the Hon'ble Supreme Court, the Government of India constituted a Committee called the Special Committee for Interlinking of Rivers (SCILR) under the chairmanship of the Minister of Jal Shakti in September, 2014. SCILR reviews the progress of ILR projects regularly and State representatives discuss their viewpoints during the meetings to sort out their apprehensions related to various ILR projects. The SCILR has held 22 meetings so far. The Union Cabinet is apprised of the progress report of the SCILR. Further, a Task Force for Interlinking of Rivers (TFILR) has also been constituted for assisting the SCILR in expediting the works under ILR Programme. The TFILR has held 20 meetings so far and has made concerted efforts for building consensus for various ILR projects in consultation with the respective States.

Further, the Government of India has identified 5 ILR projects under the NPP as priority links, viz; Ken-Betwa Link Project (KBLP), Modified Parbati-Kalisindh-Chambal (Modified PKC) Link Project and 3 links under Godavari-Cauvery Link Project {Godavari (Inchampalli)-Krishna (Nagarjunasagar) link, Krishna (Nagarjunasagar)-Pennar (Somasila) link and Pennar (Somasila)-Cauvery link}.

The KBLP is the first link project under the National Perspective Plan, the implementation of which started after the party States reached a consensus and signed a Memorandum of Agreement (MoA) in March 2021 and subsequent approval by the Union Cabinet in December 2021 for implementation of the project at an estimated cost of Rs. 44,605 crore, with a central support of Rs. 39,317 crore. The project is scheduled to be completed by March, 2030. Further, a Memorandum of Agreement (MoA) has also been signed recently by the States of Madhya Pradesh and Rajasthan and the Union of India for implementation of the Modified PKC Link Project.

Regarding the interlinking of rivers Godavari, Cauvery, etc, the NPP, *inter alia*, includes proposals for linking of rivers Manas, Sankosh, Tista, Ganga, Damodar, Subernarekha, Mahanadi, Godavari, Krishna,

Pennar, Cauvery, Vaigai and Gundar. The Manas-Sankosh-Tista-Ganga-Damodar-Subernarekha-Mahanadi linkage system envisages providing water to Mahanadi and thereafter, the Mahanadi-Godavari-Krishna-Pennar-Cauvery-Vaigai-Gundar linkage system to provide water to the down South.

Pending consensus on the Mahandi-Godavari link and the upper links, about 4189 Million Cubic Meters (MCM) of unutilized waters of the Indravati sub-basin of Chhattisgarh State has been envisaged (as per the NPP) to be diverted through the Godavari (Inchampalli)-Cauvery link, for providing irrigation benefits to about 5.74 lakh hectares (ha) area, including supplementation of existing commands, in the States of Telangana, Andhra Pradesh and Tamil Nadu. The enroute demands of domestic & industrial needs of these three States and the Union Territory (UT) of Puducherry, including the domestic and industrial needs of the Malaprabha sub-basin in Karnataka have also been considered in the project.

The modified Detailed Project Report (DPR) has been prepared by NWDA and circulated to the party States/ UT in January, 2024. Efforts have been made to build the necessary consensus amongst the party States/ UT for implementation of the project and it is for the party States/ UT of Puducherry to reach a consensus in the matter.

(e) & (f) Allocation of funds and their utilization arises after an ILR project reaches the stage of implementation, after the party States arrive at a consensus and sign an MoA for implementation of the said project. As for the Godavari-Cauvery link project, it is for the party States/ UT of Puducherry to reach a consensus for its implementation. Further, KBLP is the first and only ILR project under the NPP, which has reached the stage of implementation. The project has an estimated cost of Rs. 44,605 crore, with a central support of Rs. 39,317 crore. An expenditure of Rs. 8023.37 crore has been incurred by the Government of India on KBLP till 31.12.2024. The status of funds allocated by the Government of India and utilized for KBLP is given at **Annexure -II**.
