**ANSWER**

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY  
(SHRI JITIN PRASADA)

**(a) to (e)** The U.S. has issued Memorandum on Reciprocal Trade and Tariffs on February 13, 2025, wherein the Secretary of Commerce and United States Trade Representative are to take necessary actions to investigate harm to U.S. from any non-reciprocal trade arrangements adopted by trading partners and provide a report with detailed proposed remedies for each trading partner, based on which, US action against relevant trading partner could, thereafter be undertaken under any of the relevant US legislations. As on date, there has been no imposition of country specific including reciprocal tariffs by U.S. on India. There has been imposition of additional duties on steel and aluminium imports by US from all countries without any exemption. The impact of these duties which are an enhancement over existing such additional duties is being closely evaluated due to the fact that there are no exemptions as compared to exemptions earlier to certain major exporting countries in these sectors.

The Government of India continues to engage with the Government of United States to achieve enhancement and broadening of bilateral trade ties in a mutually beneficial and fair manner. Both nations released a joint statement on February 13, 2025, reaffirming their commitment to deepening economic ties. Under the ambitious "Mission 500", both countries aim to more than double US-India trade to USD 500 billion by 2030 to be achieved by deepening the trade relationship across multiple sectors. Both countries have committed to negotiate a mutually beneficial, multi-sector Bilateral Trade Agreement under which the countries would focus on increasing market access, reducing tariff and non-tariff barriers, enhancing supply chain integration and resolving key trade issues bilaterally.
