(a) The number of participants in the Know India Programme (KIP) over the last three years, country-wise, is at Annexure-A.

(b) The Ministry regularly obtains feedback from all batches of participants and scrutinises them to implement the suggestions for further improving the effectiveness of this diaspora engagement scheme for strengthening ties between Indian-origin youth and India. Ministry also factors in comments/suggestions from Indian Missions/Posts abroad for increasing the robustness and efficiency of this programme. The feedback from the KIP participants has been positive. Participants have also posted positive social media posts of their experiences during the KIP through their personal handles and have encouraged their friends to participate in it. Ministry has also been sharing the alumni database of the KIP with Indian Missions/Posts abroad for continued engagement with these members of the Indian diaspora overseas with the view to enhance the outreach of the Government of India in foreign countries.

(c) Ministry has adopted a multi-pronged approach to increase awareness and outreach of the Know India Programme amongst the youth diaspora by effective utilization of the social media and digital platforms. It has also worked towards creating an engaging and attractive content for the youth members of the diaspora, such as videos, infographics, and interactive quizzes, to catch their attention and share information with the latter in a more dynamic manner. Indian Missions/ Posts abroad have also been reaching out to the Indian diaspora communities abroad to further disseminate the unique opportunities offered by this Programme. The response of the youth diaspora towards the KIP has been positive. Ministry makes effort to select KIP beneficiaries with the objective to expand the geographical spread of participation in the programme.
