(a) to (c) The work of setting up of Wagon Repair Workshop at the railway land available at Dalmianagar has been sanctioned.

The said railway land is located adjacent to the existing DFCCIL railway tracks. The feasibility for connecting this site with the existing DFCCIL/ECR railway tracks has been taken up by Railway.

Further, the creation/upgradation of Rolling Stock Manufacturing/Maintenance infrastructure is a continuous process in Indian Railways and is based on the operational, traffic requirements etc.
