(SHRI RAJ BHUSHAN CHOUDHARY)

**(a) to (e)** In 1980, the Government of India formulated a National Perspective Plan (NPP) for the Inter linking of Rivers (ILR) for transferring water from surplus basins to deficit basins/areas. 30 link projects have been identified under the NPP with two components, viz; Himalayan Component (14 link projects) and Peninsular Component (16 link projects).

There are 5 ILR projects under the NPP, in the western part of the country, viz; Yamuna- Rajasthan link, Rajasthan-Sabarmati link, Modified Parbati-Kalisindh-Chambal (Modified PKC) link, Damanganga-Pinjal link and Par-Tapi-Narmada link. The details of these projects along with the status of preparation of the Detailed Project Report (DPR)/ Feasibility Report (FR)/ Pre-Feasibility Report (PFR) of these projects, the States benefitted and rivers to be interlinked therein are given at **Annexure-I**.

The above 5 ILR projects in the western part of the country have not yet reached the stage of implementation, as it is for the party States to reach a consensus for implementation of the respective ILR projects. Sanction/ release of funds to the projects would arise when these projects reach the stage of implementation. The estimated cost of the projects are given at **Annexure-II**.
