

GOVERNMENT OF INDIA  
MINISTRY OF AGRICULTURE AND FARMERS WELFARE  
DEPARTMENT OF AGRICULTURE AND FARMERS WELFARE

**RAJYA SABHA**  
**UNSTARRED QUESTION NO. 2243**  
ANSWERED ON 19/12/2025

**POLICY INTERVENTION TO ADDRESS FRAGMENTED LANDHOLDINGS**

2243. SHRI SANJAY KUMAR JHA:

Will the Minister of AGRICULTURE AND FARMERS WELFARE be pleased to state:

- (a) whether the available literature on the state of agriculture in India has pointed to the fact that the average landholding size in India is small and fragmented, which limits economies of scale and efficient farming practices;
- (b) if so, the policy intervention that exists to address this concern, the details thereof; and
- (c) if not, whether the Ministry would explore the possibility of devising such policy interventions?

**ANSWER**

THE MINISTER OF STATE FOR AGRICULTURE AND FARMERS WELFARE  
(SHRI RAMNATH THAKUR)

(a) to (c): As per latest Agriculture Census (2015-16) conducted by the Ministry of Agriculture & Farmers Welfare, the average size of operational holdings is 1.08 hectares.

Land and agriculture are the state subjects, as per the Seventh Schedule of the Constitution of India, land comes under the purview of State Governments. Further, Government of India implements various Central Sector and Centrally Sponsored Schemes to support states for development of agriculture sector as well as for promoting interest of farmers, including small and marginal farmers. The list of schemes of Department Agriculture and Farmers Welfare (DA&FW) is given at **Annexure**.

The Indian Council of Agricultural Research (ICAR) is conducting research programme to develop location specific varieties and technologies for enhancing the production and productivity of farm holdings. Further, the ICAR, through its research Institutions undertakes research for developing technologies accessible to marginal and small farmers. Government promotes high-value crops and animal husbandry, which generate more returns, compared to staple food crops.

Agrarian reforms like Farmer Producer Organizations (FPOs) can enable small farmers to pool resources, reduce the inefficiencies of small plot farming, and increase productivity. Further, collectivization and consolidation of land could be targeted by encouraging voluntary consolidation of lands and fragmented plots, thereby FPOs as a farmer institution would have more economically viable landholdings for their operation.

These initiatives demonstrate government's commitment towards addressing the issue of average landholding size in India is small and fragmented (includes small and marginal farmers), and to achieve economies of scale and efficient farming practices.

**Annexure referred to in reply to part (a) to (c) of Rajya Sabha Unstarred Question No. 2243 regarding “Policy intervention to address fragmented landholdings” due for 19/12/2025**
