

**GOVERNMENT OF INDIA
MINISTRY OF COMMERCE & INDUSTRY
DEPARTMENT FOR PROMOTION OF INDUSTRY AND INTERNAL TRADE
RAJYA SABHA**

**UNSTARRED QUESTION NO. 702.
TO BE ANSWERED ON FRIDAY, THE 05TH DECEMBER, 2025.**

GEOSPATIAL DATA UNDER PM GATISHAKTI

**702. SHRI KESRIDEVSINH JHALA:
DR. DINESH SHARMA:**

Will the Minister of **Commerce and Industry** be pleased to state:

- (a) the objectives behind the launch of the PM GatiShakti Public platform through the Unified Geospatial interface;
- (b) the categories of datasets and services that are currently accessible on the platform, and the manner in which data security is ensured for public users;
- (c) whether this initiative is expected to encourage private sector participation in infrastructure planning and investment; and
- (d) if so, the mechanism envisaged?

ANSWER

**THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE & INDUSTRY
(SHRI JITIN PRASADA)**

(a) to (d): The PM GatiShakti National Master Plan (PMGS NMP) initiative, launched in October 2021, provides an integrated geospatial platform combining datasets from over 58 Central Ministries/Departments and all States/UTs.

In line with the Budget 2025-26 announcement, PM GatiShakti Public was launched on 13 October 2025 through a query-based mechanism for sharing data analytics report with private entities on the basis of selected datasets on PM GatiShakti Public. It allows public / private sector to visualize socio-economic assets and infrastructure within a project's catchment area, identify suitable sites based on specific criteria, know the approvals & N.O.C.s required, and plan alignments for linear projects such as roads, pipelines, etc. Its objectives are:

- i. Provide open, user-friendly access to the PM GatiShakti platform for citizens, private entities, academia, researchers, etc.;
- ii. Enable geo-spatial data based decision making project planning by the private sector;
- iii. Foster wider use of geo-spatial data analytics in planning for infrastructure and socio-economic assets;
- iv. To encourage private sector participation in infrastructure planning and investment.

A Public/private person can access the PMGS platform through National Geo-spatial Data Registry (NGDR) on URL: ugi.pmgatishakti.gov.in through a self-registration process requiring two-factor authentication. Presently, the data analytics report on the portal is prepared on about 230 data layers of different Central Government Ministries/Departments.
