

GOVERNMENT OF INDIA  
MINISTRY OF PETROLEUM AND NATURAL GAS  
**RAJYA SABHA**  
**UNSTARRED QUESTION NO-945**  
ANSWERED ON- 08/12/2025

**RETAIL FUEL PRICE ADJUSTMENTS AND INPUT COST TRENDS**

945 SHRI SAKET GOKHALE:

Will the Minister of PETROLEUM AND NATURAL GAS be pleased to state:

- (a) the details of the dates and amounts of all petrol/diesel retail price changes effected from August 2022 till date;
- (b) the corresponding country's Basket crude averages and GRMs for the period August 2022 till date; and
- (c) the net marketing margin (₹/L) earned by each OMC for the period August 2022 till date and the reasons for divergence, if any, between margin spikes and unchanged retail petrol/diesel prices?

**ANSWER**

THE MINISTER OF STATE IN THE MINISTRY OF PETROLEUM AND NATURAL GAS  
(SHRI SURESH GOPI)

(a) Prices of petrol and diesel have been market-determined with effect from 26.06.2010 and 19.10.2014 respectively. Since then, the Oil Marketing Companies (OMCs) take appropriate decision on pricing of petrol and diesel in line with their international product prices, exchange rates, tax structure, insurance, inland freight and other cost elements. The details of changes in Retail Selling Prices (RSP) of Petrol and Diesel at Delhi since August 2022 are given at Annexure-I.

The final selling prices of petrol and diesel include excise duty fixed by the Central Government and State Value Added Tax (VAT)/Taxes fixed by the respective State Governments. The prices of petrol and diesel in the States across the country vary due to freight rates, VAT/local levies etc. The state-wise details of Retail Selling Prices of Petrol and Diesel (as on 05.12.2025) are given at Annexure-II.

(b) The details of monthly average of Indian Basket of Crude Oil since August 2022 are given at Annexure-III. The Gross Refining Margin (GRMs) of OMCs and standalone refineries since FY 2022-23, as compiled by Petroleum Planning & Analysis Cell (PPAC), are given at Annexure-IV.

(c) Public Sector Oil Marketing Companies (OMCs) report financial results broadly under the segments of downstream petroleum activity including refining and marketing of petroleum products, petrochemicals and other business streams. Considering commercial confidentiality and complexities involved in cost apportionment amongst individual refined products, product-wise costs or margins are not reported separately by the OMCs in their financial statements.
