GOVERNMENT OF INDIA
MINISTRY OF AYUSH
RAJYA SABHA
UNSTARRED QUESTION NO. 1130
TO BE ANSWERED ON 10th FEBRUARY 2026

"Progress of Ayush grid project in digitizing patient records in Madhya Pradesh"

1130. **Shri Ashok Singh:**

Will the Minister of Ayush be pleased to state:

(a) the progress of the "Ayush Grid" project in digitizing patient records and standardizing treatment protocols across Ayush hospitals in Madhya Pradesh;

(b) the number of youth/startups supported to develop Ayush-based applications (e.g.,Yoga apps, Tele-consultation platforms) under the Ministry's innovation schemes; and

(c) the status of networking Ayush educational institutes in the State with the National Knowledge Network (NKN) for research collaboration?

ANSWER

THE MINISTER OF STATE (IC) OF THE MINISTRY OF AYUSH
(SHRI PRATAPRAO JADHAV)

(a) The Ayush Grid has improved access to Ayush-based primary healthcare by strengthening digital infrastructure and standardizing treatment protocols. Through platforms such as the Ayush Hospital Management Information System (A-HMIS) integrated with the Ayushman Bharat Digital Mission (ABDM), patient registration, electronic health records, referrals and continuity of care are being enabled digitally. Real-time dashboards and standardized reporting further support monitoring, planning and targeted interventions by State and district authorities, thereby enhancing availability and accessibility of Ayush services. These digital systems have been implemented nationwide, and users across all States and Union Territories are utilizing the Ayush Grid platforms and services including Madhya Pradesh.

(b) Incubation Centre for Ayurveda Innovation and Entrepreneurship (iCAINE) at All India Institute of Ayurveda (AIIA), under Ministry of Ayush functions as a sector focused incubator for Ayurveda and allied sciences, supporting early stage innovators and startups through incubation, mentorship and facilitation of linkages with national and state innovation/seed schemes. Within this mandate:

- Support has been given through the Smart India Hackathon (SIH) Program 2024 to 12 Teams across India representing All India Council for Technical Education (AICTE) approved colleges.
- 101 Individuals have been supported as part of pre-incubation program.

(c) No such information is available with the Ministry at present. However, National Knowledge Network (NKN) connectivity has been provided to National Institutes and Regional Research Institutes (RRIs) functioning under various research councils under the Ministry. This includes 27 institutes under the Central Council for Research in Ayurvedic Sciences (CCRAS), such as the Regional Ayurveda Research Institute (RARI), Gwalior, located in the State of Madhya Pradesh.
