

GOVERNMENT OF INDIA
MINISTRY OF ELECTRONICS AND INFORMATION TECHNOLOGY
RAJYA SABHA
UNSTARRED QUESTION NO. 1672
TO BE ANSWERED ON: 13.02.2026

**STATUS OF MODIFIED ELECTRONICS MANUFACTURING
CLUSTERS (EMC 2.0) SCHEME**

1672. SHRI S. SELVAGANABATHY:

Will the Minister of ELECTRONICS AND INFORMATION TECHNOLOGY be pleased to state:

- (a) the status of approvals, sanctioned projects and financial assistance disbursed under Modified Electronics Manufacturing Clusters (EMC 2.0) Scheme, including details of EMCs and Common Facility Centres (CFCs) approved till date and their current stage of implementation;
- (b) to what extent Ready Built Factory (RBF) sheds and Plug-and-Play facilities have been operationalised under EMC 2.0 with details of investments attracted and number of global and domestic electronics manufacturers that have set up units within EMC 2.0 parks; and
- (c) whether the Ministry has undertaken any assessment of the Scheme's impact on strengthening supply chain responsiveness, reducing logistics costs and improving time-to-market for electronics manufacturers?

ANSWER

MINISTER OF STATE FOR ELECTRONICS AND INFORMATION TECHNOLOGY
(SHRI JITIN PRASADA)

(a) to (c): Ministry of Electronics and Information Technology (MeitY) notified the Modified Electronics Manufacturing Clusters (EMC 2.0) Scheme in April 2020 to develop world-class electronics manufacturing infrastructure, attract investments, strengthen supply chains and generate employment, through financial support for establishment of dedicated electronics clusters with shared infrastructure facilities, including ready industrial plots and Ready Built Factory (RBF)/Plug-and-Play facilities. The scheme was open for receipt of application up to 31st March 2024 and further period up to March 2028, is available for disbursement of funds to the approved projects.

Under the Scheme, 13 projects—11 EMCs and 2 CFCs, with a total project cost of INR 5,226.49 crore, including Central financial assistance of INR 2,492.74 crore, have been approved. These projects, covering an area of 4,399.68 acres, are spread across 10 States of the country and have a projected investment of INR 1,46,846 crore.

As on date, investments amounting to INR 10,915.84 crore have been mobilised. Details of the implementation status of the projects are placed at **Annexure**.

Further, under the EMC 2.0 Scheme at least 10% of the saleable/leasable area within the cluster has been provisioned for the ready built factory (RBF) sheds. The RBF sheds under the EMC 2.0 parks are in various stages of construction. So far, land has been allotted to 120 manufacturing units comprising of 22 global and 98 domestic electronics manufacturers.

The Impact Assessment of the EMC 2.0 Scheme was conducted by the National Institute for Micro, Small and Medium Enterprises under Ministry of MSME. The key findings of EMC 2.0 Scheme noted accelerated development of world-class electronics manufacturing infrastructure, including RBFs & advanced CFCs, and have generated substantial direct and indirect employment.

The EMC 2.0 Scheme has contributed to strengthening electronics manufacturing by improving supply chain responsiveness, creation of RBF/Plug-and-Play facilities, and improving time-to-market for electronics manufacturers within cluster environments.

#	State	Type / Location	Area (in acre)	RBF sheds (in acre) / % of Saleable area	Project Cost (₹ in Cr)	Meit Y Contribution (₹ in Cr)	GIA Released (₹ in Cr)	Land Allotted to Units	No. of Global Electronics Manufacturers	No. of Domestic Electronics Manufacturers	Investment Committed (₹ crore)	Investment Mobilised / Grounded (₹ crore)
