

**GOVERNMENT OF INDIA**  
**MINISTRY OF ELECTRONICS AND INFORMATION TECHNOLOGY**  
**RAJYA SABHA**  
**UNSTARRED QUESTION NO. 862**  
**TO BE ANSWERED ON: 06.02.2026**

**ELECTRONICS MANUFACTURING AND EXPORTS**

**862. SMT. SUMITRA BALMIK:**

Will the Minister of ELECTRONICS AND INFORMATION TECHNOLOGY be pleased to state:

- (a) the total number of mobiles phones being manufactured / assembled in India, year-wise during the last three years including 2025-26;
- (b) the details of India's growing strength as an electronics manufacturer and the sectors which are being focussed upon, the details of support being provided by the Ministry;
- (c) the electronics manufacturing clusters in the country and the proposed clusters to be set up; and
- (d) the total value of electronics goods exported from India, during the last three years including 2025-26?

**ANSWER**

**MINISTER OF STATE FOR ELECTRONICS AND INFORMATION TECHNOLOGY**  
**(SHRI JITIN PRASADA)**

(a) to (d): Driven by Hon'ble Prime Minister's vision of Make in India and Atmanirbhar Bharat, Government of India has taken several policy initiatives to develop a complete ecosystem of electronics manufacturing. As a result of these initiatives, electronics manufacturing in India has expanded significantly in the last 11 years, which can be seen from the following statistics:

#	2014-15	2024-25	Remarks
Production of electronics goods (Rs.)	~1.9 Lakh Cr	~11.3 Lakh Cr	Increased 6 times
Export of electronics goods (Rs.)	~38 thousand Cr	~3.27 Lakh Cr	Increased 8 times

The mobile production and exports in the last 3 years are as follows:

#	2014-15	2024-25	2025-26 (upto Sep 2025) *
Production of mobile phones (Rs.)	~0.18 Lakh Cr	~5.5 Lakh Cr	9.34 Lakh Cr.
Export of mobile phones (Rs.)	~0.01 Lakh Cr	~ 2 Lakh Cr	5.12 Lakh Cr

\* Economic Survey 2025-26

India has witnessed a remarkable growth in the mobile phone manufacturing and exports in last decade and mobile manufacturing has played an anchor role in the growth of the Indian Electronics ecosystem. This can be seen from the following:

- India has emerged as the 2<sup>nd</sup> largest mobile manufacturer in the world.
- India has reached a stage where ~99% of mobile handsets being sold in India are ‘Made in India’ (in volume terms).
- This is a remarkable shift from FY 2014-15, when around 74% of mobile phones sold in India were imported. Now, India has become a net exporter of Mobile Phones from being an importer in 2014.
- As per industry estimates, electronics sector employs approximately 25 lakh people.

The Economic Survey 2025-26 notes that electronics exports reached \$22.2 billion in the first half of FY26, which would soon propel the sector to be the 2<sup>nd</sup> highest export category by value.

To provide plug-and-play manufacturing infrastructure with ready land, utilities, and common facilities, reduce setup time, and enhance production efficiency, Government also launched **Electronics Manufacturing Clusters** (EMC and EMC 2.0) Scheme. Under EMC and EMC 2.0 schemes, total 30 Greenfield Electronics Manufacturing Clusters (EMCs) and 5 Common Facility Centers (CFCs) have been established across 18 States in the country.

As of now, these clusters have mobilized investments of more than Rs. 30,000 crore and generated employment around 90,000 jobs.
