(b). The quantum of FDI outflows by foreign investors for the year 2022-23, 2023-24,2024-25 and 2025-26 is as under:

| S. No. | Year | FDI Outflows by foreign investors (in USD billion) (Repatriation/ Disinvestment) |
|---|---|---|

Source-RBI Bulletin

(c) &(d). India registered a record gross FDI inflow of USD 94.84 billion in FY 2025-26 as compared to USD 80.61 billion in FY 2024-25. The decline in net FDI in recent years recovered to USD 6.95 billion in FY 2025–26 from USD 0.96 billion in FY 2024–25. The recent trend in net FDI inflows is associated with increased repatriation/disinvestment by foreign investors and rising Overseas Direct Investment (ODI) outflows. The ODI outflow on account of liberalized ODI rules notified in 2022 is helping Indian entities to enhance their business footprints abroad enabling them to compete in the global market, adding to the strength of Indian economy in long run. The increasing trend of repatriation indicates that India is not only attracting foreign capital but also delivering strong returns, which enhances its reputation as a reliable investment destination.
