ANSWER

THE MINISTER OF STATE FOR TEXTILES
(SHRI PABITRA MARGHERITA)

(a): Under the PM MITRA Scheme, Development Capital Support (DCS) of up to 30% of the project cost, subject to a maximum of ₹500 crore per Park, is provided for development of infrastructure. Accordingly, the first installment of ₹50 crore was released to the PM MITRA Park at Virudhunagar during FY 2025-26. Development of infrastructure is under implementation as per the approved Master Plan.

(b): The tender for development of the Common Effluent Treatment Plant (CETP) for the PM MITRA Park at Virudhunagar has been floated. The proposed Zero Liquid Discharge (ZLD) facility shall be developed as part of the integrated environmental infrastructure for the Park.

(c) & (d): Development of core infrastructure & grounding of investment in the park are progressing simultaneously. As on date, 177.40 acres of land is in the process of being allotted in the PM MITRA Park at Virudhunagar. Applications have been invited for allotment of the remaining land. The Park has received investment proposals with an employment potential of approximately 13,011 persons so far.

(e): To incentivize the early establishment of manufacturing units in PM MITRA Parks, the PM MITRA Scheme provides for Competitive Incentive Support (CIS) of up to ₹300 crore per Park, wherein the incentive can be provided to manufacturing units up to 3% of the total sales turnover on first come first serve basis. This is only available to those manufacturing companies who are not availing Textile PLI scheme benefits and will be available till the funds provided are not exhausted for the PM MITRA Park.
