

**GOVERNMENT OF INDIA
MINISTRY OF HOUSING AND URBAN AFFAIRS
RAJYA SABHA
UNSTARRED QUESTION NO. 59
ANSWERED ON 20/07/2026**

**SOLID WASTE MANAGEMENT AND SEWAGE TREATMENT INFRASTRUCTURE
IN MAHARASHTRA**

59. SHRI DHANANJAY BHIMRAO MAHADIK:

Will the Minister of *Housing and Urban Affairs* be pleased to state:

- (a) whether Government proposes to strengthen solid waste management and sewage treatment infrastructure in urban local bodies of the State of Maharashtra;
- (b) the details of financial assistance provided;
- (c) the cities covered under these initiatives; and
- (d) the expected impact on urban sanitation and environmental sustainability?

ANSWER

**THE MINISTER OF STATE IN THE MINISTRY OF HOUSING AND URBAN AFFAIRS
(SHRI TOKHAN SAHU)**

- (a) to (d): As per the provisions of Article 243W of the Constitution, in conjunction with the Seventh and Twelfth Schedules, matters relating to urban development fall within the purview of States/Urban Local Bodies (ULBs). However, Ministry of Housing and Urban Affairs (MoHUA) provides programmatic support to the States/Union Territories (UTs) in their urban development agenda through its various flagship Missions/Programmes viz. Atal Mission for Rejuvenation & Urban Transformation 2.0 (AMRUT 2.0), Swachh Bharat Mission-Urban 2.0 (SBM-U 2.0), etc.

Through these Missions/Schemes, the Central Government approves the State Plans and provides the Central Assistance to the States. The projects are selected, designed, approved and executed by the States/UTs and the cities. The State Governments release funds to the cities/districts.

AMRUT and AMRUT 2.0: Under AMRUT launched in the year 2015 in selected 500 cities (now 485 cities including 15 merged cities) and towns across the country projects for development of basic infrastructure including sewerage and septage management were taken up by the States/ UTs. Under AMRUT 2.0 launched in the year 2021 in all ULBs/ cities, universal coverage of sewerage and septage management in 500 AMRUT cities is one of the major focus areas. Under the Mission, States/ UTs are empowered to select, appraise, prioritize and implement projects.

Under AMRUT, the State of Maharashtra has taken up 36 sewerage/ septage management projects worth ₹3,294.03 crore for augmentation of 833 Million Litres per Day (MLD) of Sewage Treatment Plant (STP) capacity. Under AMRUT 2.0, the State has taken up 46 sewerage and septage management projects worth ₹12,127.41 crore for augmentation of 1,060.5 MLD STP capacity. Through AMRUT/ AMRUT 2.0 and in convergence with the State, 7.49 lakh sewerage connections [including households covered through Faecal Sludge and Septage Management (FSSM)] have been provided.

Contd...2/-

The cities/ ULBs wise details of sewerage and septage management projects under AMRUT and AMRUT 2.0 are given in Annexure-I and Annexure-II respectively. Funds under AMRUT/ AMRUT 2.0 are not released ULB-wise or project-wise. The funds are now released to the States through Mother Sanctions which are utilised by the State on real time basis. For the current year 2026-27, Mother Sanction for an amount of ₹700 crore has been issued to the State for AMRUT 2.0 projects.

SBM-U and SBM-U 2.0: Government of India launched SBM-U on October 2, 2014 with the objective of Open Defecation Free (ODF) and for scientific processing of Municipal Solid Waste (MSW) generated in the Urban areas, including the State of Maharashtra. To carry forward the progress made, SBM-U 2.0 launched on October 1, 2021 is being implemented uniformly in urban areas of all States/UTs, including Maharashtra, for a period of five years with a vision of achieving Garbage Free Status for all cities through 100% scientific management of all fractions of municipal waste. Under a new component i.e., Used Water management (UWM), financial assistance is provided to the ULBs with population less than 1 Lakh. Mission allocation to the State of Maharashtra under SBM-U (2014-2021) and SBM-U 2.0 (2021-2026) was ₹1,677.80 cr and ₹3,758.50 cr respectively.

In State of Maharashtra, under SBM-U, 7,24,396 seats of Individual Household Latrines (IHHL) and 1,66,465 seats of Community/Public Toilets (CT/PTs) have been constructed under SBM-U. Out of 6,818 total wards, 6,693 wards are practicing door to door collection and 6,655 wards are practicing source segregation. Out of the 24,222 Tonnes per Day (TPD) of waste, 22,695 TPD of waste is being processed.

Annexure-I as referred to in reply to part (a) to (d) of Rajya Sabha Unstarred Question No. 59 due for answer on July 20, 2026 regarding ‘Solid Waste Management and sewage treatment infrastructure in Maharashtra’.

City wise details of Sewerage and Septage management Projects in Maharashtra under AMRUT

#	City	Title	Project Cost (In ₹ Cr.)
1	Ahmadnagar	Sewerage – New Project	32.43
2	Ahmadnagar	Ahmadnagar Sewerage 17-18	131.07
3	Akola	Akola Sewerage 16-17	79.23
4	Ambarnath	Ambarnath Sewage 17-18	68.11
5	Amravati (MH)	Amravati Sewerage 16-17	81.87
6	Badlapur	Badlapur City Sewerage Project	47.15
7	Barshi	Barshi Sewage 17-18	112.4
8	Barshi	Sewerage Project in Zone 1 and 2	12.25
9	Bid	Beed Sewerage 2017-18	165.8
10	Chandrapur	Chandrapur Recycling and Reuse of Waste Water	78.93
11	Hinganghat	Hinganghat Sewerage	81.06
12	Jalgaon	Jalgaon Sewerage	195.68
13	Jalgaon	Sewerage – New Project	10.25
