

GOVERNMENT OF INDIA
MINISTRY OF RAILWAYS
RAJYA SABHA
UNSTARRED QUESTION NO. 746
ANSWERED ON 24.07.2026

ROLLOUT OF KAVACH 4.0

746 SHRI UJJWAL DEORAO NIKAM:
SHRI BABUBHAI JESANGBHAI DESAI:
DR. DINESH SHARMA:
SHRI KESRIDEVSINH JHALA:
SMT. MAYA NAROLIYA:
SHRI BRIJ LAL:
SMT. SEEMA DWIVEDI:
DR. SANDEEP KUMAR PATHAK:
SHRI AMAR PAL MAURYA:
SHRI NARESH BANSAL:
SHRI S. SELVAGANABATHY:
DR. MEDHA VISHRAM KULKARNI:
SHRI BHASHYAM RAMA KRISHNA:
SHRI CHUNNILAL GARASIYA:
SHRI LAHAR SINGH SIROYA:
SHRI RAJINDER GUPTA:
SHRI VIJAY CHINTAKAYALA:

Will the Minister of RAILWAYS be pleased to state:

- (a) the progress made in the deployment of Kavach 4.0m, including the route kilometres and locomotives covered as of date;
- (b) the railway zones and high-density corridors identified for implementation during 2026- 27, State & district-wise including Uttar Pradesh;
- (c) whether any timeline has been prescribed for network-wise deployment of Kavach, if so, the details thereof; and
- (d) the measures taken to accelerate the installation and commissioning of Kavach across the Indian Railways network?

ANSWER

MINISTER OF RAILWAYS, INFORMATION & BROADCASTING AND
ELECTRONICS & INFORMATION TECHNOLOGY

(SHRI ASHWINI VAISHNAW)

- (a) to (d):
- 1. Kavach is an indigenously developed Automatic Train Protection (ATP) system. Kavach is a highly technology intensive system, which requires safety certification of highest order (SIL-4).
 - 2. Kavach aids the Loco Pilot in running of trains within specified speed limits by automatic application of brakes in case Loco Pilot fails to do so and also helps the trains to run safely during inclement weather.

3. The first field trials on the passenger trains were started in February 2016. Based on the experience gained and Independent Safety Assessment of the system by Independent Safety Assessor (ISA), three firms were approved in 2018-19, for supply of Kavach Ver 3.2.
4. Kavach was adopted as National ATP system in July, 2020.
5. Implementation of Kavach System involves following Key Activities:
 - a. Installation of Station Kavach at each and every station, block section.
 - b. Installation of RFID Tags throughout the track length.
 - c. Installation of telecom Towers throughout the section.
 - d. Laying of Optical Fibre Cable along the track.
 - e. Provision of Loco Kavach on each and every Locomotive running on Indian Railways.
6. Based on deployment of Kavach version 3.2 on 1,465 Rkm on South Central Railway and experience gained, further improvements were made. Finally, Kavach specification version 4.0 was approved by RDSO on 16.07.2024.
7. Kavach version 4.0 covers all the major features required for the diverse railway network. This is a significant milestone in safety for Indian Railways. Within a short period, IR has developed, tested and started deploying Automatic Train Protection System.
8. Major improvement in Version 4.0 includes increased Location Accuracy, Improved Information of Signal Aspects in bigger yards, Station to Station Kavach interface on OFC and Direct Interface to existing Electronic Interlocking System. With these improvements, Kavach Ver.4.0. is planned for large scale deployment over Indian Railways.
9. After extensive and elaborate trials, Kavach Version 4.0 has been successfully commissioned on 2,490 Route Kilometres as on 13.07.26, covering the high density Delhi- Mumbai and Delhi-Howrah routes including sections passing through Uttar Pradesh as below:

SN	Section	Progress (Route Km)
(1)	Delhi-Mumbai route: 1,344 Rkm	
i	Tilak Bridge - Junction cabin – Palwal – Mathura – Nagda –Vadodra-Virar section (Except Mangalmhudi – Panchpipliya) (passes through Uttar Pradesh also)	1,248
ii	Vadodara – Ahmedabad section	96

(2)	Delhi – Howrah route: 1,146 Rkm	
i.	Chipyana - Tundla - Kanpur - Subedarganj section (passes through Uttar Pradesh)	563
ii.	Kanpur – Lucknow section (passes through Uttar Pradesh)	71
iii.	DDU(FOC)-Bhabua Road section (passes through Uttar Pradesh also)	50
iv.	Sasaram - Pheser section	43
v.	Gaya -Sarmatarn- Nimiaghat section	159
vi.	Chota Ambana - Bardhaman – Howrah section	260

10. In addition, track side Kavach implementation work is being taken up on 21,937 RKM covering all GQ,GD,HDN and identified sections of Indian Railways including sections passing through Uttar Pradesh.

11. The total Progress of key items of Kavach on Indian Railway sections are as under:-

SN	Item	Progress
i	Laying of Optical Fibre Cable	11,253 Km
ii	Installation of Telecom Towers	1,668 Nos.
iii	Station Data Centre	958 station
iv	Installation of Track side equipment	7,721 RKm
v	Provision of Kavach in Loco	6,045 Nos.

12. In addition, work for installation of Kavach in 7,435 Locomotives and 1,200 EMU/MEMU has been taken up.

13. Specialized training programmes on Kavach are being conducted at centralized training institutes of Indian Railways to impart training to all concerned officials. By now more than 94,000 technicians, operators and engineers have been trained on Kavach technology. This includes about 57,000 Loco Pilots & Assistant Loco Pilots. Courses have been designed in collaboration with IRISSET.

14. The funds utilized on Kavach works so far up to Jun'26 is Rs.3874.9 cr. The allocation of funds during the year 2026-27 is Rs.2066.24 crore. Kavach work is going at good pace in the entire country including Uttar Pradesh. Requisite funds are made available as per the progress of works.
