(a) & (b) : There is no such plan. However, specific hygienic and sanitary practices are required to be followed by Food Business Operators engaged in catering /food service establishments. Some of these practices prescribed in Schedule 4, Part V of Food Safety and Standards (Licensing and Registration of Food Businesses) Regulations, 2011 relating to use of pre-used oil are:

(ii) (3) (e) : “Re-use of cooking oil should be avoided”

(ii) (3) (j) : “Incase or reheating of oil, use maximum three time to avoid the formation of trans fat. It is ideal to use once, if possible.”

(vi) (7) (4) : “Re-heating and reuse of oil should be avoided as far as possible. Avoid using left over oil wherever possible.”

(c) to (e) : No such specific complaint has been received in FSSAI. Implementation and enforcement of Food Safety and Standards Act, 2006 and Rules and Regulations made thereunder is primarily the responsibility of the States/UT Governments. Regular surveillance, monitoring, inspection and random sampling of all the food items are being done by the State Food Safety Officers. The samples thus collected are sent to the laboratories recognized by FSSAI for analysis. In cases samples are found to be not conforming to the provisions of the Act, and the Rules and Regulations made thereunder, recourse is taken to the penal provisions under Chapter IX of the Act.
