**(b)&(c):** Production of coal is not directly dependent on manpower. Production depends on geo-mining conditions, depth of coal deposit, thickness of deposit, reserves, availability and adequacy of infrastructure of mines.

Production in subsidiaries having more number of underground mines have limitation in increasing production as mass production technology cannot be introduced. More manpower is required in underground mines as compared to open cast mines.

Subsidiary-wise Manpower, Production and No. of mines are as under:
