(d) The quantum of debt is primarily dependent on the fiscal deficit. In the Medium Term Fiscal Policy Statement laid before the Parliament, along with Budget 2016-2017, the fiscal deficit has been projected to decline from 3.9 per cent (Revised Estimates) of GDP in 2015-16 to 3.5 per cent of GDP in BE 2016-17. As per the Medium Term Fiscal Policy Statement laid before the Parliament along with Budget 2016-2017, the total outstanding liabilities of the Central Government at the end of 2017-18 and 2018-19 have been estimated at 46.8 per cent and 44.4 per cent of GDP respectively.
