Multi Brand Retail Trading

Sector/Activity	% of Equity/ FDI Cap	Entry Route
Multi Brand Retail Trading	51%	Government
<p>(1) FDI in multi brand retail trading, in all products, will be permitted, subject to the following conditions:</p> <p>(i) Fresh agricultural produce, including fruits, vegetables, flowers, grains, pulses, fresh poultry, fishery and meat products, may be unbranded.</p> <p>(ii) Minimum amount to be brought in, as FDI, by the foreign investor, would be US \$ 100 million.</p> <p>(iii) At least 50% of total FDI brought in the first tranche of US \$ 100 million, shall be invested in 'back-end infrastructure' within three years, where 'back-end infrastructure' will include capital expenditure on all activities, excluding that on front-end units; for instance, back-end infrastructure will include investment made towards processing, manufacturing, distribution, design improvement, quality control, packaging, logistics, storage, ware-house, agriculture market produce infrastructure etc. Expenditure on land cost and rentals, if any, will not be counted for purposes of backend infrastructure. Subsequent investment in backend infrastructure would be made by the MBRT retailer as needed, depending upon its business requirements.</p> <p>(iv) At least 30% of the value of procurement of manufactured/processed products purchased shall be sourced from Indian micro, small and medium industries, which have a total investment in plant & machinery not exceeding US \$ 2.00 million. This valuation refers to the value at the time of installation, without providing for depreciation. The 'small industry' status would be reckoned only at the time of first engagement with the retailer, and such industry shall continue to qualify as a 'small industry' for this purpose, even if it outgrows the said investment of US \$ 2.00 million during the course of its relationship with the said retailer. Sourcing from agricultural co-operatives and farmers co-operatives would also be considered in this category. The procurement requirement would have to be met, in the first instance, as an average of five years' total value of the manufactured/processed products purchased, beginning 1st April of the year during which the first tranche of FDI is received. Thereafter, it would have to be met on an annual basis.</p> <p>(v) Self-certification by the company, to ensure compliance of the conditions at serial nos. (ii), (iii) and (iv) above, which could be cross-checked, as and when required. Accordingly, the investors shall maintain accounts, duly certified by statutory auditors.</p>
