**ANSWER**

**पेट्रोलियम और प्राकृतिक गैस मंत्री (स्वतंत्र प्रभार)**

**(श्री धर्मन्द्र प्रधान)**

**MINISTER OF STATE (I/C) IN THE MINISTRY OF PETROLEUM AND NATURAL GAS  
(SHRI DHARMENDRA PRADHAN)**

---

(a) to (e): A statement is laid on the table of the House.

**Statement referred to in reply to parts (a) to (e) of the Lok Sabha Starred Question No. 56 asked by Dr. Sunil Baliram Gaikwad and Shri C.S. Putta Raju to be answered on 6<sup>th</sup> February, 2017 regarding “Prices of Petroleum Products”.**

(a): The details of monthly average price of Indian basket of crude oil, Petrol, Diesel, Kerosene and LPG in the international market during the last two years and the current year are given in **Annexure I**.

(b) to (d): Prices of Petrol and Diesel have been made market determined by the Government effective 26<sup>th</sup> June, 2010 and 19<sup>th</sup> October, 2014 respectively. Since then, the prices of Petrol and Diesel are being revised by Public Sector Oil Marketing Companies (OMCs) in line with the changes in their international prices and other market conditions. The element of excise duty which is specific in nature has been increased since November, 2014. Most of the State Governments have also increased VAT on Petrol and Diesel. After taking into account these factors, Public Sector OMCs have passed on major portion of the decrease in price to the consumers of Petrol and Diesel. Private oil companies decide the prices of Petrol and Diesel being sold from the Retail outlets run by them. The Government continues to modulate the effective price to consumer for Subsidized Domestic LPG and Retail Selling Price (RSP) of PDS Kerosene.

The number of times basic prices of Petrol, Diesel, LPG and Kerosene are revised during the last two years and current year are given below:

Increase/decrease in basic prices	Petrol	Diesel	LPG		PDS Kerosene
			Subsidized	Non - Subsidized	
Increase	23	24	07	13	13
Decrease	31	27	-	19	-

Further, the maximum retail price of Compressed Natural Gas (CNG) is fixed by the concerned City Gas Distributions (CGD) entity as provided under the Petroleum and Natural Gas Regulatory Board (PNGRB) Act, 2006. The prices of CNG vary from city to city depending upon the basic cost of Natural Gas, transportation cost and local taxes and levies.

(e): Petroleum product, except PDS Kerosene and Subsidized Domestic LPG, are deregulated products and their prices are market determined. Further, the refining capacity is not only sufficient for domestic consumption (except LPG) but also leaves surplus for export of petroleum products. Since, 2001-02, India is a net exporter of petroleum products.
