

GOVERNMENT OF INDIA
MINISTRY OF WATER RESOURCES,
RIVER DEVELOPMENT & GANGA REJUVENATION
LOK SABHA
UNSTARRED QUESTION NO. 11
ANSWERED ON 02.02.2017

UNINTERRUPTED SUPPLY OF WATER TO STATES

11. SHRI RAM MOHAN NAIDU KINJARAPU

Will the Minister of WATER RESOURCES, RIVER DEVELOPMENT AND GANGA REJUVENATION be pleased to state:

- (a) whether the Government is aware of the state of depleting water table and poor monsoon in the country, if so, the details thereof;
- (b) whether the Government has instituted irrigation and other water works to ensure steady and uninterrupted flow of water to States;
- (c) if so, the State-wise details thereof including the number of works instituted in Andhra Pradesh along with the status of the same; and
- (d) whether the Government has more such projects in the pipeline including the proposed funding for the same, if so, the details thereof?

ANSWER

THE HON'BLE MINISTER OF STATE FOR WATER RESOURCES, RIVER DEVELOPMENT AND GANGA REJUVENATION

(DR. SANJEEV KUMAR BALYAN)

(a) Central Ground Water Board (CGWB) carries out ground water monitoring, four times a year, on regional scale through a network of observation wells in the Country. Water level data for pre-monsoon 2016 compared with decadal mean of pre-monsoon (2006-2015) indicates decline in ground water level in 66% of the wells monitored. Details are given at **Annexure –I**. The rainfall during monsoon season (June-September) over the Country as a whole was 97% of its long period average (LPA).

(b) to (d) The Government of India launched the 'Pradhan Mantri Krishi Sinchayee Yojana' (PMKSY) in 2015-16. The scheme has been formulated with the vision of extending the coverage of irrigation 'Har Khet Ko Pani' and improving water use efficiency 'More Crop Per Drop' in a focused manner with end to end solution on source creation, distribution, management, field application and extension activities. It considers options including linking of rivers, where feasible; for ensuring optimal use of our water resources to prevent the recurrence of floods and drought. By harnessing rain water through 'Jal Sanchay' and 'Jal Sinchan', it will nurture water conservation and ground water recharge. Micro irrigation will also be popularised to ensure 'Per Drop-More crop'.

PMKSY has been formulated amalgamating ongoing schemes viz. Accelerated Irrigation Benefit Programme (AIBP) of the Ministry of Water Resources, River Development & Ganga Rejuvenation (MoWR, RD & GR), Integrated Watershed Management Programme (IWMP) of Department of

Land Resources (DoLR) and the On Farm Water Management (OFWM) of Department of Agriculture and Cooperation (DAC). PMKSY has been approved for implementation across the country with an outlay of Rs. 50,000 crore in five years.

PMKSY-AIBP

Under Pradhan Mantri Krishi Sinchayi Yojana (PMKSY-AIBP), out of 149 ongoing irrigation projects at the end of 2014-15, 99 projects were identified for completion by December 2019. Out of these 99 projects, 23 priority projects have been identified for completion by March 2017. The details of irrigation projects identified under PMKSY and funds allocated/made available for the purpose to each State during the current year, State/Project wise is at **Annexure-II**.

PMKSY- Har Khet Ko Pani

Under PMKSY, Repair, Renovation and Restoration (RRR) of Water Bodies scheme is a part under the sub-component Har Khet Ko Pani. The scheme has multiple objectives like Comprehensive improvement and restoration of water bodies thereby increasing tank storage capacity, Ground Water Recharge, increased availability of drinking water, etc. This is a continuing scheme since X Plan and is presently being implemented during XII Plan also.

The scheme for implementation of RRR of Water Bodies in XII Plan envisages taking up RRR works in 10,000 water bodies with an outlay of Rs 10,000 crore. The Central and State share would be Rs. 6235 crore and Rs. 3765 crore respectively. Out of 10000 water bodies, 9000 water bodies will be in rural areas and balance 1000 water bodies will be in urban areas. All public and community owned water bodies may be covered under the scheme but Private owned water bodies are not covered. Urban water bodies having water spread area from 2 hectares to 10 hectares are eligible to be included under the scheme. Rural water bodies having minimum water spread area of 5 hectares will be included under the scheme.

Empowered Committee (EC) of MOWR, RD &GR in its 5 meetings held has so far cleared a total of 1354 water bodies costing Rs. 1025.87 cr. from 9 states and included them under the scheme of RRR and a CA of Rs 291.67 crore (includes Rs. 27.00 crore released to Odisha for the on-going works of XI Plan scheme) has been released to 8 States. Works of 1236 water bodies were taken up with a target of restoration of CCA of 101265 ha. So far, 506 water bodies along with CCA of 60081 ha have been restored. RRR works of 730 water bodies are under progress.

So far, total 3681 proposals of water bodies have been received from 21 states including Andhra Pradesh for their inclusion under RRR scheme of water bodies during XII Plan. Out of 3681 proposals, 1354 water bodies have been approved for their inclusion under the scheme while remaining 2428 water bodies are in process of their inclusion under the scheme following the “Guidelines for the Continuation of Scheme on Repair, Renovation and Restoration (RRR) of Water Bodies in XII Plan”. The above cited details are enclosed as **Annexure-III**.

National Projects

The details of ongoing & proposed National Projects are given at **Annexure-IV**. So far, 16 Projects have been identified in various States including one project (Polavaram Project) in Andhra Pradesh under the scheme of National Projects by Government of India.

ANNEXURE – I

Annexure referred in reply to **Lok Sabha Unstarred Question No. 11** dated **02.02.2017** regarding **“Uninterrupted Supply of Water to States”**

**State-wise Decadal Water Level Fluctuation with Decadal Mean
Pre-monsoon (2006 to 2015) and Pre-monsoon 2016**
