(a): Medical Council of India (MCI) maintains the Indian Medical Register which is updated on the basis of information received from time to time from the State Medical Councils with regard to the registration of doctors who possess recognized medical qualifications. It is not maintained according to the place of medical practice of the doctor concerned. Further, Clause 28 of the Indian Medical Council Act, 1956 prescribes that the person registered in the Indian Medical Register shall intimate to the MCI and to the State Medical Council concerned within thirty days of transfer of the place of his residence or practice failing which his right to participate in the election of members to the MCI or a State Medical Council shall be liable to be forfeited by order of the Central Government either permanently or for a specified period.

(b): MCI informed that the Indian Medical Register is updated from time to time based on the information provided by the State Medical Councils and the name of a particular doctor is deleted from the Indian Medical Register only on the request of the Registrar, State Medical Council with the reasons thereof.
