ANSWER

THE MINISTER OF STATE FOR FOOD PROCESSING INDUSTRIES
(SADHVI NIRANJAN JYOTI)

(a) & (b) As per extant Policy, FDI up to 100%, under the automatic route, is allowed in food processing industries. The Government does not fix targets for FDI inflows as FDI is largely a matter of private business decisions. FDI inflows depend on a host of factors such as availability of natural resource, market size, infrastructure, political and general investment climate as well as macro-economic stability and investment decision of foreign investors. Further, 100% FDI is permitted under Government approval route for trading, including through e-commerce, in respect of food products manufactured and/or produced in India. According to the data provided by the Department of Industrial Policy and Promotion (DIPP), the food processing sector in the country has received US\$ 5.76 billion worth of Foreign Direct Investment (FDI) equity inflows during the period 2010-11 to 2015-16. In 2016-17(Apr-Dec), the food processing sector in the country has received US\$ 663.23 million worth of Foreign Direct Investment (FDI) equity inflows.

(c) to (e) Government has been interacting with investors to identify issues for promoting FDI in the food processing sector. Several issues including sale of home and personal care product have been raised by investors. M/s Amazon Corporate Holdings Private Limited, M/s Grofers India Pvt Ltd. and M/s Supermarket Grocery Supplies Pvt Ltd. (Big Basket) have submitted foreign investment proposals for approval of the Government for undertaking retail trading of food products in India.
