- (c) whether the Union Government has fixed target of 20 lakh tonnes buffer stock of pulses and if so, the details of the buffer stock of pulses built so far; and
- (d) whether the Union Government has imported pulses to create buffer stock and if so, the price difference between imported pulses and purchase from the domestic growers, pulse-wise?

**ANSWER**

**उपभोक्ता मामले, खाद्य और सार्वजनिक वितरण राज्य मंत्री**  
**(श्री सी. आर. चौधरी)**

**THE MINISTER OF STATE**  
**CONSUMER AFFAIRS, FOOD AND PUBLIC DISTRIBUTION**  
**(SHRI C. R. CHAUDHARY)**

(a) : As per the Working Group Report on Foodgrains-Balancing Demand & Supply During 12<sup>th</sup> FYP of Niti Aayog (erstwhile Planning Commission), the projected demand for pulses during 2016-17 is estimated to be around 24.61 million tonnes while the estimated production of pulses (2<sup>nd</sup> Advance Estimates of Production of Foodgrains, 2016-17) is 22.14 million tonnes, thereby implying higher demand than domestic production.

(b) : Government has approved engaging a professional Buffer Stock Management Agency (BSMA) for efficient management of the buffer stock including procurement, storage, maintenance and liquidation of the stock as per Government directives from time to time. The agency for designing and managing the bid process has been selected. Contract for appointment is being finalized.

(c) : The Government has approved creation of buffer upto 20 lakh tonnes of pulses. As on 08.03.2017, around 14.66 lakh tonnes of pulses have been procured or contracted for imports towards building the buffer.

(d) : Government has contracted imports of 4.06 lakh tonnes of pulses towards building the buffer stock. The prices of pulses fluctuates daily as well as over season. While approving the bid for imports, Price Stabilization Fund Management Committee (PSFMC) ,inter alia, compares offer rate with prevailing domestic rate and bids are generally approved for import when the rate offered are lower than prevailing domestic prices of that pulses.
